PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and maintained software modules for a financial-services client, enhancing transaction monitoring capabilities and reducing processing errors by **15%** through targeted **Java Spring Boot** updates.
- Authored **Python** scripts to automate data validation and ETL processes for enterprise business systems, decreasing manual data handling time by **40%** and improving data accuracy.
- Managed and resolved P1/P2 incidents for enterprise applications using **Splunk** and **Dynatrace**, consistently meeting SLA targets and minimizing system downtime to **less than 0.1%**.
- Contributed to the development of test and user specifications for embedded systems, ensuring adherence to company **QA requirements** and **ASPICE** compliance standards.
- Organized and conducted code reviews for own work product and peer contributions, improving overall code quality and reducing defect injection rates by **20%**.
- Generated and tracked tickets for identified problems and required changes using **Jira**, implementing fixes and enhancements that improved system stability by **18%**.

SKILLS

Languages – Python, Java, C, C++, SQL

Frameworks/Libraries – Spring Boot, Pandas, NumPy, Scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2/S3/Lambda/CloudWatch), Docker, Jenkins, Git

Tools/Platforms – Jira, Confluence, Splunk, Dynatrace, Linux

Methodologies – Agile/Scrum, CI/CD, Code Reviews, ASPICE

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Embedded Systems ECU Configuration and Testing Suite

- Developed a Python-based automation suite to manage and test Electronic Control Unit (ECU) configurations, directly supporting the **development and maintenance of software modules**.
- Integrated the suite with version control and change control tools, enabling efficient tracking of over **500 configuration variations** and ensuring adherence to company **QA requirements**.
- Implemented automated module testing and generated detailed module test reports, reducing the manual testing effort for ECU software by **60%** and accelerating release cycles.

Financial Services Transaction Monitoring Dashboard

- Enhanced a payments operations dashboard for a financial-services client, implementing real-time **transaction monitoring** for failed payment messages and improving operational alerting accuracy by **25%**.
- Developed **Java Spring Boot** microservices and REST APIs for data ingestion and processing, handling over **1 million transactions** daily with 99.9% uptime.
- Collaborated with business analysts to define requirements for reconciliation workflows, ensuring compliance with **GDPR awareness** and audit trail generation for sensitive financial data.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
