

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and maintained software modules for automotive systems, adhering to stringent **coding guidelines** and contributing to the **ASPICE** quality process, resulting in a 15% reduction in post-release defects.
- Generated comprehensive test and user specifications for software features, leading module testing and producing detailed **module test reports** that ensured 99.8% test coverage.
- Implemented code fixes and enhancements based on tracked issues, managing the full lifecycle from ticket generation to deployment and reducing average resolution time by 20% through proactive **change control management**.
- Contributed to the support and configuration of **ECUs** by participating in testing activities and providing technical input, ensuring seamless integration with broader vehicle systems.
- Managed work products within the **CM database** and conducted code reviews for own work, ensuring adherence to company QA requirements and facilitating a 10% improvement in code quality metrics.
- Reported on software development activities, including progress and issues, to the **software team leader** and management, enhancing project transparency and enabling timely decision-making.

SKILLS

Programming Languages – Python, Java, C, C++

Embedded Systems – Microcontrollers, DSP, ARM, Multi-core SoC's, ECU Testing

Software Development Tools – Debuggers, Emulators, Jenkins, Git, Jira, Confluence

Quality Assurance – ASPICE, QA Requirements, Module Testing, Code Reviews

Databases & Data Management – SQL (PostgreSQL, MySQL, Oracle), CM Database

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Automotive ECU Software Development Framework

- Architected and implemented a reusable software development framework for **automotive ECUs**, incorporating modular design principles to support diverse hardware targets (ARM, Multi-core SoC's).
- Developed automated testing scripts using **Python** and integrated them into a **Jenkins CI/CD pipeline**, achieving 95% automated test coverage for core functionalities and reducing manual testing effort by 40%.

- Managed code versions and changes using **Git** and maintained detailed documentation within a central **CM database**, ensuring compliance with **ASPICE** Level 3 requirements and facilitating efficient team collaboration.

Real-time Transaction Monitoring Dashboard

- Built a **payments operations dashboard** for a financial-services client, providing real-time transaction monitoring and operational alerting for failed payment messages using **Java Spring Boot** and **PostgreSQL**.
- Automated data ingestion and reporting processes using **Python scripting**, reducing manual data reconciliation time by 30% and ensuring data accuracy for critical financial operations.
- Implemented incident response and SLA management for production systems, leveraging **Splunk** and **Dynatrace** for proactive issue detection and resolution, maintaining 99.9% system uptime.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
