PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed and reconciled **purchase orders and invoices** for facilities services and projects, ensuring accurate financial tracking and reducing discrepancies by **15%**.
- Maintained comprehensive records for **service contracts and service level agreements (SLAs)**, coordinating scheduled visits and ad-hoc maintenance, which improved vendor response times by **20%**.
- Automated the tracking and updating of the **facilities service request system** using Python scripting, decreasing manual entry errors by **30%** and speeding up resolution times.
- Supported compliance initiatives by maintaining and updating **EHS and Health & Safety records**, contributing to a **10%** improvement in audit readiness.
- Developed and maintained asset registers and utilities records, consolidating data from disparate sources to provide a unified view for management reporting.
- Facilitated cross-functional collaboration by liaising with **contractors, service providers, and internal colleagues** to ensure efficient project execution and maintain operational continuity.

SKILLS

Administration & Compliance – Facilities Management, EHS Records, Health & Safety, Service Level Agreements (SLAs), Vendor Management, Contract Management, Purchase Requisitions, Invoice Reconciliation, Asset Registers, Compliance Standards

Operations & Systems – Service Request Systems, Office Space Planning, People Moves, Utilities Records Management, Change Control Management, Production Support, Incident Response

Automation & Data Management – Python Scripting, Data Pipelines, ETL Processes, SQL (PostgreSQL, MySQL, Oracle), Data Validation, Reporting Automation

Software & Tools – Microsoft Office Suite (Word, Excel, PowerPoint, Outlook), Jira, Confluence, Splunk, Dynatrace

Technical Foundation – Java Spring Boot, REST APIs, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git, Jenkins

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Integrated Facilities Operations Platform

- Developed a Python-based platform to manage all aspects of facilities operations, integrating **service contract tracking, purchase order/invoice reconciliation, and EHS compliance reporting**.

- Automated the processing of over 500 monthly service requests, reducing average resolution time by **25%** through streamlined workflows and real-time updates in a centralized system.
- Implemented a digital asset register that captured and tracked over 1,000 facility assets, improving maintenance scheduling accuracy and reducing unplanned downtime by **18%**.

Payments Operations Dashboard Enhancements (HCL Technologies)

- Enhanced transaction monitoring capabilities for a financial-services client, improving the detection of failed payment messages by **35%** through advanced SQL querying and data validation.
- Contributed to the production support of a payments operations dashboard, maintaining **99.9% uptime** and responding to P1/P2 incidents within SLA targets.
- Refined reconciliation workflows by developing Python scripts to automate data comparison between internal ledgers and external transaction feeds, reducing manual reconciliation effort by **40%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
