PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Implemented **production readiness** and lifecycle ownership for a high-throughput payments operations dashboard, reducing incident frequency by **18%** through proactive monitoring and automated recovery scripts.
- Engineered **automation pipelines** using Python and Jenkins for certificate renewal and traffic routing, decreasing manual intervention time by **40%** and enhancing system security.
- Managed **incident response** and led blameless postmortems for critical P1/P2 incidents in a financial-services production environment, optimizing Mean Time to Recovery (MTTR) by **22%**.
- Developed and maintained **CI/CD pipelines** with Jenkins and Git, ensuring smooth software promotion and operational gating, leading to a **15%** faster deployment cycle.
- Enhanced system availability and performance by embedding **self-healing capabilities** and robust logging/monitoring standards, achieving **99.95%** uptime for critical financial services.
- Drove initiatives for **compliance and risk management**, including GDPR awareness and audit trail integrity for sensitive transaction data, ensuring adherence to regulatory standards.

SKILLS

DevOps & SRE – Site Reliability Engineering (SRE), CI/CD, Jenkins, Git, Ansible, Chef, Groovy, Shell Scripting, Bitbucket, XLR

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, NGINX, F5 BIG-IP

Observability & Monitoring – Dynatrace, Splunk, CloudWatch, Log Analysis, Alerting

Automation & Scripting – Python, Ansible, Groovy, Shell Scripting

Networking & Security – gRPC, Mutual TLS, SSL, SSH, Encryption Standards, Network Layers (L1-L7)

API & Integration – REST APIs, gRPC

Domain & Compliance – Payment Gateways, Payment Domains, PCI Compliance, GDPR, ITSM, Safety & Soundness

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated Payment Gateway Resilience Platform

- Designed and deployed a comprehensive **DevOps BizOps platform** for payment gateway products, integrating **Ansible** for infrastructure-as-code and **Jenkins** for automated deployments to **AWS**.
- Implemented **gRPC** event-driven architectures for inter-service communication and integrated **Dynatrace** and **Splunk** for end-to-end observability, reducing incident detection time by **30%**.

- Developed automation for **certificate lifecycle management** and **mutual TLS** configuration using Python scripts and **NGINX**, ensuring 100% compliance with security standards and eliminating manual renewal errors.

Financial Services Transaction Monitoring Dashboard

- Developed and supported a **payments operations dashboard**, enhancing **transaction monitoring** capabilities and providing real-time operational alerting for failed payment messages.
- Collaborated with business analysts to refine requirements for **reconciliation workflows**, ensuring data accuracy and audit trail integrity within a **GDPR-aware** production environment.
- Managed **change-control processes** for system configuration updates and coordinated User Acceptance Testing (UAT) for new feature rollouts, ensuring smooth post-implementation support.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
