

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **Java Spring Boot microservices** to enhance existing financial-services platform capabilities, contributing to a **15% increase** in transaction processing throughput.
- Automated routine operational tasks using **Python scripting**, reducing manual intervention time for data pipeline execution by **40%** and improving data refresh cycle times.
- Optimized **SQL queries** across **PostgreSQL** and **Oracle** databases for the payments operations dashboard, resulting in a **20% reduction** in report generation latency and enhanced data retrieval performance.
- Managed incident response and resolution for critical production systems, consistently meeting **SLA targets** and minimizing downtime through proactive monitoring with **Splunk** and **Dynatrace**.
- Designed and implemented **Power BI dashboards** and complex **DAX measures** to visualize key performance indicators for business stakeholders, enabling data-driven decision-making and improving reporting accuracy by **25%**.
- Supported enterprise business systems and ERP integrations by performing **change-control management**, coordinating UAT, and providing post-go-live support, ensuring seamless system updates for over **500 users**.

SKILLS

Programming Languages – Python, Java, SQL, R, DAX

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Data Visualization – Power BI, Tableau, Power Query

Monitoring & Observability – Splunk, Dynatrace

Methodologies – Agile, Scrum, Data Modelling, ETL, API Development

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Predictive Maintenance Analytics Platform (HCL Technologies)

- Engineered a machine learning pipeline using **Python** and **scikit-learn** to predict equipment failures in a simulated industrial environment, achieving an **88% accuracy rate** in anomaly detection.
- Developed REST APIs with **Java Spring Boot** to serve predictive model outputs to an operational dashboard, facilitating proactive maintenance scheduling and reducing potential downtime by an estimated **10%**.

- Implemented data ingestion and transformation processes using **SQL** on **PostgreSQL** and batch processing with **pandas**, handling over **1 million records** daily to feed the predictive models.

Executive Financial Performance Dashboard (MSc Data Analytics)

- Constructed interactive **Power BI dashboards** consolidating financial data from disparate sources, providing executives with real-time insights into key performance indicators and revenue streams.
- Created complex **DAX measures** and calculated columns to derive actionable metrics, improving the granularity and accuracy of financial reporting by **30%**.
- Performed data cleansing and transformation using **Power Query** and applied data modelling techniques to ensure data integrity and optimize dashboard performance for over **50 users**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
