PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **React** UI components and **TypeScript** features for a financial platform, enhancing user experience for millions of enterprise users.
- Authored comprehensive unit, integration, and system-level tests within a **continuous delivery pipeline**, achieving **95%** code coverage and reducing production defects by **20%**.
- Collaborated with cross-functional teams to define technical roadmaps and provided technical guidance, influencing architectural decisions for new feature development.
- Constructed **API integrations** for frontend components, enabling seamless data flow and functionality across disparate enterprise systems, improving data consistency by **15%**.
- Refactored legacy Java Spring Boot services, implementing **REST API** enhancements and resolving critical bugs, which improved system stability and reduced incident response time by **25%**.
- Supported production environments for a financial-services dashboard, including **transaction monitoring** and operational alerting, ensuring **99.95%** uptime and adherence to strict SLAs.

SKILLS

Frontend Development – React, TypeScript, JavaScript, HTML5, CSS, UI Frameworks, UX Best Practices

Backend Development – Java, Spring Boot, Python, REST APIs, Object-Oriented Design Patterns

Testing & CI/CD – Unit Testing, Integration Testing, System-Level Testing, Continuous Delivery Pipeline, Jenkins, Git

Databases & Data Handling – SQL, PostgreSQL, MySQL, Oracle, Data Modeling, Power Query

Cloud & Operations – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Splunk, Dynatrace

Data Analytics & BI – Power BI, Tableau, DAX, R, pandas, NumPy, scikit-learn

Methodologies – Agile, Scrum, Change Management, Peer Code Reviews, Pair Programming

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Design-System-Driven Customer Portal (HCL Technologies)

- Engineered a scalable customer portal frontend using **React** and **TypeScript**, adhering to a comprehensive design system to ensure UI consistency across **50+** components.
- Developed and integrated **REST APIs** for real-time data retrieval and user interaction, reducing data load times by **30%** and improving overall portal responsiveness.

- Implemented a robust testing strategy, including unit and integration tests in a **CI/CD pipeline**, decreasing critical bugs found in production by **25%** and maintaining **99.9%** availability.
- Collaborated with UX designers to translate wireframes into interactive prototypes, facilitating early stakeholder feedback and refining user workflows.

Payments Operations Dashboard Enhancements (HCL Technologies)

- Enhanced a financial-services operations dashboard by developing new **transaction monitoring** features using Java Spring Boot, improving the visibility of failed payment messages by **40%**.
- Automated operational reporting using Python scripts, reducing manual effort by **15 hours** per week and ensuring timely delivery of critical financial metrics.
- Managed change control processes for database schema updates in **PostgreSQL**, ensuring data integrity and supporting reconciliation workflows with zero downtime.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
