

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **Java Spring Boot microservices** for a financial-services operations dashboard, increasing transaction processing throughput by **18%** and supporting critical regulatory reporting workflows.
- Automated **data validation and reconciliation processes** using Python scripts, reducing manual effort by **40%** and improving data accuracy for enterprise business systems.
- Managed production incidents and SLA adherence for a portfolio of enterprise applications, resolving over **150 critical issues** and minimizing downtime through proactive monitoring with **Splunk** and **Dynatrace**.
- Designed and implemented **Power BI dashboards** and DAX measures for MSc Data Analytics coursework, providing actionable business intelligence insights that informed strategic decision-making for stakeholders.
- Enhanced **PostgreSQL database performance** by refactoring complex SQL queries and implementing strategic indexing, resulting in a **30% reduction** in report generation times for ERP system integrations.
- Contributed to **CI/CD pipeline enhancements** using Jenkins and Git, streamlining code deployment and reducing release cycles by **15%** for a large-scale enterprise software platform.

SKILLS

Core Development – Java, Spring Boot, Python, REST APIs, SQL, Docker, Linux, Git

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Jenkins, CI/CD

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn, data modelling, data warehousing

Enterprise Systems – ERP support, Change Management, Systems Integration, Production Support, Incident Management

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

Databases – PostgreSQL, MySQL, Oracle

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Rail Operations Capacity Planning Dashboard (WSP)

- Architected and developed an interactive **Power BI dashboard** to visualise rail network capacity utilisation and forecast potential bottlenecks, integrating data from disparate operational systems.
- Implemented complex **DAX measures** and data models to derive key performance indicators (KPIs) such as on-time performance, passenger load factors, and infrastructure availability, achieving a **99.5% data accuracy**.

- Automated data extraction and transformation using **Power Query**, processing terabytes of historical rail performance data to provide a **3-year predictive outlook** for network planning and investment strategies.

Financial Transaction Monitoring & Alerting System (HCL Technologies)

- Built a **Java Spring Boot application** to monitor real-time financial transaction flows, detecting anomalies and triggering alerts for failed or delayed payment messages with **99.9% uptime**.
- Developed **Python scripts** for automated data ingestion and aggregation from multiple sources, feeding into the monitoring system and reducing manual data reconciliation efforts by **35%**.
- Integrated with **Splunk** for comprehensive log analysis and incident response, enabling rapid triage and resolution of production issues within strict SLA parameters.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
