

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Assisted in the installation of **structured cabling** and **telecom systems** for enterprise clients, ensuring adherence to project specifications and quality standards.
- Supported the configuration of both on-premise and cloud-based **phone systems**, integrating with existing network infrastructure to meet client communication needs.
- Diagnosed and resolved technical faults for **telecoms and IT infrastructure**, performing root cause analysis for both onsite and remote issues, reducing average resolution time by **15%**.
- Collaborated with senior engineers on customer projects, contributing to the successful deployment of **networking fundamentals** including routers, LANs, and IP configurations.
- Managed communication with customers and internal teams regarding project status and issue resolution, maintaining a **95% customer satisfaction** rating across support interactions.
- Automated repetitive diagnostic tasks using **Python scripting**, which decreased manual intervention by **20%** and improved system monitoring efficiency.

SKILLS

Telecoms Infrastructure – Structured Cabling, PBX Systems, Hosted Phone Systems, Network Installation, Fault Diagnosis

Networking Fundamentals – Routers, LANs, IP Addressing, Network Configuration, Remote Troubleshooting

Programming & Automation – Python, Shell Scripting, REST APIs, Java Spring Boot

Cloud & OS – AWS (EC2, S3, Lambda), Linux, Docker

Databases – SQL (PostgreSQL, MySQL, Oracle)

Project Management & Support – Agile/Scrum, Jira, Confluence, Change Management, Incident Response

Business Intelligence – Power BI, Tableau, DAX, Data Modelling

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Telecoms Network Deployment & Support Platform

- Developed a Python-based tool to automate the initial configuration and deployment of **routers** and switches across customer sites, reducing setup time by **30%**.
- Integrated a remote monitoring module using **AWS CloudWatch** and custom logging to track system health and diagnose faults for **PBX and hosted phone systems**, improving proactive issue detection by **25%**.

- Designed and implemented a structured knowledge base in **Confluence** for common troubleshooting steps and installation guides, enabling junior engineers to resolve **70%** of standard issues independently.

HCL Financial Services Transaction Monitoring Dashboard

- Enhanced a **payments operations dashboard** by developing new Java Spring Boot services to process and display real-time transaction statuses, supporting over **1 million transactions daily**.
- Automated data validation and reconciliation workflows using **Python** and **SQL** against PostgreSQL and Oracle databases, ensuring data integrity for critical financial operations.
- Managed production support and incident response for the dashboard, maintaining **99.9% uptime** under strict SLA requirements within a GDPR-aware environment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
