PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Analyzed and reviewed diverse software interface screenshots, accurately identifying UI elements and interpreting user workflows to train AI models, achieving a **98% accuracy rate** in classifying observable evidence versus assumptions.
- Completed structured annotation and data review tasks for complex web applications and admin panels, ensuring judgments were strictly grounded in visual input and adhering to established guidelines, leading to a **15% reduction** in model misinterpretations.
- Evaluated AI model responses by assessing screenshots of dashboards, forms, and CRM tools, providing clear, well-reasoned explanations for assessments that directly impacted AI model improvements, contributing to a **10% uplift** in model reasoning accuracy.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace** for monitoring, resolving P1/P2 incidents within SLA targets and documenting findings for cross-functional teams, ensuring **99.9% uptime**.
- Developed Python scripts for data pipeline automation and scheduled reporting, improving data processing efficiency by **20%** and reducing manual effort for operational teams supporting financial-services dashboards.
- Collaborated with cross-functional teams on change-control management for ERP system updates and integrations, coordinating UAT and post-go-live support for interconnected systems, ensuring seamless transitions and **zero critical post-deployment issues**.

SKILLS

Data Review & Annotation – Screenshot analysis, UI interpretation, Workflow analysis, Evidence vs. Assumption distinction, Structured annotation, Technical writing

AI Training & Development – Model response evaluation, Feedback provision, Quality assurance, Data-driven insights

Software Engineering – Java Spring Boot, Python, REST APIs, SQL (PostgreSQL, MySQL, Oracle), Linux, Git, Jenkins, Docker

Cloud & Operations – AWS (EC2, S3, Lambda, CloudWatch), Production support, Incident response, SLA management, Monitoring (Splunk, Dynatrace)

Business Systems & BI – ERP integration support, Payments operations dashboards, Transaction monitoring, Reconciliation workflows, Power BI, Tableau, DAX, Power Query

Communication & Collaboration – Written communication, Verbal communication, Cross-functional collaboration, Remote team collaboration, Agile/Scrum methodologies

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

AI-Powered UI Interaction Analysis Platform

- Designed and implemented an AI training platform that analyzes screenshots of diverse software interfaces, identifying UI elements and interpreting user workflows with **99% precision**.
- Developed automated annotation tools using Python and machine learning concepts, enabling the evaluation of AI model responses based on observable evidence from dashboards and web applications, improving annotation throughput by **40%**.
- Integrated feedback mechanisms for human reviewers to distinguish between evidence-based findings and assumptions, contributing to a **12% enhancement** in AI model's reasoning capabilities across complex interfaces.

Financial Services Transaction Monitoring Dashboard

- Engineered a Java Spring Boot-based dashboard for a financial-services client, providing real-time transaction-flow monitoring and operational alerting for failed payment messages.
- Developed Python scripts for automated data ingestion and validation from multiple sources, supporting reconciliation workflows and reducing manual data reconciliation time by **30%**.
- Managed production deployments and incident response using **AWS** and **Jenkins**, ensuring high availability and adherence to strict audit trail and regulatory awareness requirements for the payments operations dashboard.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
