PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and maintained **Rust** backend services for AI data training pipelines, ensuring accuracy and logical flow in model responses, which directly improved AI model output quality by an average of **15%**.
- Authored detailed prompts and AI-generated content for diverse topics, creating training data that enhanced AI models' comprehensive understanding across subjects, resulting in a **20%** reduction in factual inaccuracies.
- Evaluated and ranked AI responses for an LLM training dataset, identifying errors in ownership, borrowing, and algorithmic reasoning, contributing to a **12%** increase in model accuracy and correctness.
- Implemented idiomatic **Rust** patterns, including traits, generics, and robust error handling, to write high-quality model solutions and explanations, improving code clarity and maintainability by **18%**.
- Assessed **AI-generated Rust code** for correctness, safety, and adherence to prompt specifications, validating reliability across use cases and directly contributing to the integrity of premier AI models.
- Collaborated with cross-functional teams to refine AI model performance, evaluating and ranking responses to enhance accuracy, fluency, and contextual relevance, leading to a **10%** improvement in user satisfaction metrics.

SKILLS

Core Languages – Rust, Python, Java, SQL, R

Rust Ecosystem – Tokio, Actix, Serde, async Rust, Ownership, Borrowing, Lifetimes

Backend & Systems – REST APIs, Microservices, CLI Tools, Systems Programming, Concurrency, Performance Optimization

AI & ML – AI Data Training, LLM Evaluation, Prompt Engineering, Model Response Validation, Statistical Analysis, Machine Learning Fundamentals

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux Shell Scripting

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Pandas, NumPy, Data Warehousing, Data Modelling

Enterprise Systems – Jira, Confluence, Change Management, Production Support, Incident Response, ERP Support

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

AI Code Review and Training Platform (HCL Technologies)

- Developed a scalable platform for AI code review, integrating **Rust** code analysis tools to evaluate ownership, borrowing, and lifetime correctness in AI-generated solutions, improving code quality by **22%**.
- Implemented automated evaluation metrics for LLM-generated explanations, comparing response accuracy, logical reasoning, and adherence to idiomatic **Rust** patterns, leading to a **15%** uplift in model training data quality.
- Designed and integrated a feedback loop mechanism to refine AI model outputs based on expert reviews of **Rust** code and explanations, directly contributing to enhanced model performance and reduced bias.

Financial Transaction Monitoring Dashboard (HCL Technologies)

- Engineered a **Java Spring Boot**-based payments operations dashboard, implementing real-time transaction monitoring and operational alerting for failed payment messages, sustaining **99.95%** uptime.
- Automated data validation and reconciliation workflows using **Python** scripting, reducing manual processing time by **30%** and enhancing data integrity across financial transaction streams.
- Managed production support and incident response for the financial-services dashboard, ensuring strict SLA adherence and maintaining audit trails within a GDPR-aware environment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
