+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **feature enhancements** for a real-time Voice application, contributing to a **15% increase** in customer satisfaction scores by refining call routing logic.
- Participated in the full software development lifecycle, including **design, implementation, and deployment** of new Voice product features, ensuring adherence to agile methodologies and TDD principles.
- Investigated and resolved production bugs, reducing critical incident response times by **20%** through root cause analysis and implementing preventative tests for the Zendesk Voice platform.
- Refactored **legacy code** within the Voice product backend, improving maintainability and reducing bug introduction by **18%** in subsequent releases.
- Developed and maintained **production support** processes for a high-availability, real-time communication system, achieving **99.99% uptime** through proactive monitoring and incident management.
- Collaborated with senior engineers to integrate **new JavaScript features** into the React frontend for the Voice product, enhancing user interface responsiveness by **25%**.

SKILLS

Backend Development – Ruby on Rails, Java, Spring Boot, Python, REST APIs.

Frontend Development – React JS, Redux, JavaScript, Angular.

Databases & Messaging – MySQL, PostgreSQL, Redis, Kafka.

Testing & CI/CD – RSpec, Selenium WebDriver, Ruby, Jenkins, GitHub Actions.

Cloud & Infrastructure – AWS, Docker, Kubernetes, Linux.

Monitoring & Observability – Datadog, Splunk, Dynatrace, CloudWatch.

Agile & Collaboration – JIRA, Confluence, Slack, Zoom, Agile/Scrum.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Real-Time Voice Communication Platform Enhancement (HCL Technologies)

- Developed a fault-tolerant **real-time communication** module using **Java Spring Boot** and **AWS Lambda**, processing over 10,000 concurrent calls daily.
- Integrated **Kafka** for asynchronous event processing, reducing message latency by **30%** and improving system scalability for peak loads.

- Implemented comprehensive **unit and integration tests** using JUnit and Mockito, achieving **90% code coverage** and significantly decreasing production defects.

Customer Support Dashboard with React and Ruby on Rails

- Engineered a customer support dashboard application, merging **React JS** frontend components with a **Ruby on Rails** backend API to display real-time customer interaction data.
- Connected to a **MySQL** database to fetch and display customer service metrics, enabling support managers to monitor team performance with a **15% improvement** in issue resolution time.
- Deployed the application on **Kubernetes** using **GitHub Actions** for continuous integration and delivery, streamlining the release process and reducing deployment time by **40%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
