PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and executed comprehensive test cases for new features, achieving **95% test coverage** and reducing critical defects by **20%** prior to release.
- Developed and maintained automated test scripts for both API and Web UI functionalities, increasing testing efficiency by **40%** and enabling faster feedback loops.
- Integrated automated test suites into **Jenkins CI/CD pipelines**, reducing manual testing effort by **3 days per sprint** and ensuring consistent quality checks.
- Collaborated with development teams to clarify product requirements and assess test feasibility, contributing to the timely delivery of **15+ major feature releases**.
- Managed defect tracking and resolution using **Jira**, ensuring accurate bug reporting and timely fixes that improved application stability by **15%**.
- Optimized automation test frameworks by implementing reusable components and modular design, enhancing script maintainability and reducing execution time by **25%**.

SKILLS

Automation Testing – Test Case Design, API Testing, Web UI Automation, Selenium, Playwright, Postman, JMeter, Performance Testing

Programming Languages – Python, Java, SQL

Frameworks & Tools – pytest, TestNG, Jenkins, Git, Jira, Confluence, Docker

Web Technologies – HTTP Protocols, RESTful APIs, Dynamic Elements, Asynchronous Loading

Software Development Lifecycle – Agile/Scrum, CI/CD, Version Control, Defect Management

Core Competencies – Test Coverage Analysis, Test Result Analysis, Reporting, Problem-Solving, Collaboration

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Automated Regression Suite for Enterprise Application

- Developed a comprehensive automated regression suite using **Python** and **pytest** to validate core application functionalities, covering over **1000 test scenarios**.
- Implemented **API automation** for critical backend services using **Postman** and integrated these tests into the CI pipeline, reducing manual API testing time by **70%**.

- Designed and implemented robust **Web UI automation** scripts using **Playwright** to handle dynamic elements and asynchronous page loading, ensuring reliable testing of the user interface and achieving **98% test pass rate**.

Payments Operations Dashboard Enhancements

- Enhanced the payments operations dashboard by developing **Java Spring Boot** microservices to process and monitor inbound transaction messages, supporting **millions of transactions daily**.
- Implemented real-time alerting mechanisms for failed or stuck payment messages, reducing average incident detection time by **50%** and improving operational response.
- Supported production environments with strict audit trails and regulatory awareness, ensuring compliance and maintaining high availability for critical financial operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
