PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed samples throughout laboratory lifecycle including internal sample movement, external shipment coordination, complex sample pulls, aliquoting activities, and reference material inventory management, ensuring **100% GMP and data integrity compliance** across all sample-related documentation.
- Administered sample-related documentation with receipt, review, and accurate entry of external sample results onto **LIMS systems**, maintaining legible, timely records in accordance with **GMP and data integrity requirements**, achieving **zero documentation discrepancies** in quality audits.
- Generated environmental monitoring and water analysis reports using **Power BI dashboards and SQL data queries**, delivering agreed quality and business metrics with **95% on-time delivery** and proactively identifying **process improvements that reduced report generation time by 30%**.
- Responded to ad-hoc sample pulls and sample-related information requests with **real-time LIMS queries and data retrieval**, supporting laboratory analytical personnel and providing seamless cover for PSS team members to ensure **uninterrupted service delivery across all shifts**.
- Collaborated cross-functionally with client personnel, laboratory teams, and external suppliers to meet and exceed client requirements, demonstrating flexibility to support multiple areas of the business and ensuring delivery against agreed client processes and deliverables.
- Maintained comprehensive documentation, systems, and training records in accordance with company, client, safety, housekeeping, and **quality standards**, initiating staff training and escalating deviations or discrepancies to management with documented corrective actions.

SKILLS

Laboratory Management & Sample Operations – sample lifecycle management, internal sample movement, external shipment coordination, complex sample pulls, aliquoting, reference material inventory management, LIMS administration.

Quality & Compliance – GMP compliance, data integrity requirements, documentation standards, quality audits, regulatory compliance, training record management, deviation escalation.

Data Analysis & Reporting – Power BI dashboards, SQL queries, environmental monitoring reports, water analysis reports, business metrics delivery, quality metrics reporting.

Laboratory Systems & Tools – LIMS, environmental monitoring systems, sample tracking platforms, laboratory information management.

Professional Skills – ad-hoc request management, cross-functional collaboration, process improvement, operational efficiency, flexibility, shift coverage, client relationship management.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Sample Management & LIMS Documentation System (HCL Technologies)

- Designed and implemented end-to-end sample receipt, logging, and documentation workflows on **LIMS platforms**, ensuring **100% data integrity** and **GMP compliance** across all sample-related records from intake through analysis and result reporting.
- Developed **SQL-based data validation scripts** to audit sample documentation accuracy, identifying and correcting **98% of data entry discrepancies** before regulatory review and reducing post-audit remediation by **40%**.
- Created standardized reference material inventory management procedures with **automated tracking dashboards**, reducing inventory lookup time by **35%** and ensuring zero stockouts of critical reference materials.

Environmental Monitoring & Water Analysis Reporting Dashboard (HCL Technologies)

- Built **Power BI dashboards** for environmental monitoring and water analysis data, integrating **SQL queries** to extract and visualize key quality and business metrics from laboratory systems with **real-time refresh capability**.
- Automated monthly report generation using **Power Query ETL workflows** and **DAX measures**, reducing manual reporting effort by **50%** and enabling **95% on-time delivery** of agreed quality metrics to stakeholders.
- Identified and implemented process improvements through data trend analysis, including optimized sample batch scheduling and resource allocation, delivering **efficiency gains of 25%** in laboratory throughput and operational cost savings of **€12,000 annually**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
