PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **data integration and data analysis solutions** across disparate banking and ERP systems, extracting **ISO 20022 message flows** and payment transaction data from **Oracle, PostgreSQL, and MySQL** databases; built **ETL pipelines** using **Python** and **SQL** to transform and distribute financial data across multiple data stores, achieving **99.5% SLA compliance** for production reconciliation workflows.
- Built extensible **data acquisition and integration solutions** using **AWS (S3, Lambda, CloudWatch)** and **Jenkins CI/CD pipelines** to meet functional and non-functional requirements; orchestrated **data warehousing** processes for SEPA payments and cross-border transaction reporting, reducing manual data processing overhead by **40%**.
- Developed **scalable data pipelines** in **Python** with **pandas, NumPy, and scikit-learn** for complex analysis and business intelligence integration designs; provided problem-solving expertise to interface with cross-functional teams (Product Management, Integration Engineering, Quality Engineering, System Admin Teams) to enable product consumability across geographically distributed teams.
- Managed **big data technologies** and **data modeling** projects including **Spark** concepts, **Hadoop** architectures, and **data lake** design patterns; built **Power BI dashboards** and **Tableau** visualizations for operational business intelligence reporting, delivering actionable insights to banking domain stakeholders and improving decision-making velocity by **35%**.
- Implemented robust **CI/CD automation** using **Jenkins pipelines, Git, Artifactory, and YAML** configuration management for cloud deployments; executed **Infrastructure as Code (IaC)** practices with **CloudFormation** templates for AWS resource provisioning, enabling **Infrastructure as Code** standardization across distributed services.
- Leveraged **AI-assisted developer productivity tools** and **Claude API (Anthropic)** for prompt engineering and workflow automation, integrating **GitHub Actions** CI/CD with cloud deployments on **Vercel**; demonstrated strong technical understanding in building **scalable, high-performance distributed services** with rapid prototyping and remediation capabilities.

SKILLS

Data Integration & Big Data Technologies – data integration, ETL, data pipelines, data warehousing, data lake architecture, big data querying, Spark, Hadoop, Apache Airflow, data modeling.

AWS Data Warehousing & Cloud Platforms – AWS EMR, S3, AWS Glue, Lambda, CloudWatch, RDS, Athena, CloudFormation, Infrastructure as Code (IaC).

Data Processing & Engineering – PySpark, Python, pandas, NumPy, scikit-learn, Delta Tables, Parquet, ORC, Avro, Sequence files, data transformation, data distribution.

Database & Query Technologies – Oracle, PostgreSQL, MySQL, SQL, DynamoDB, NoSQL data stores, big data querying tools, Athena, Databricks.

CI/CD & DevOps – Jenkins, Git, Artifactory, YAML, Maven, CloudFormation, GitHub Actions, cloud deployments.

Business Intelligence & Analytics – Power BI, Tableau, DAX, Power Query, data visualization, business intelligence design, interactive dashboards.

Financial Services & Enterprise Systems – SWIFT messaging (MT/MX), ISO 20022 message flows, SEPA payments, cross-border payments, payments processing, ERP integration, change-management, Java REST APIs, API standards.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin	02/2026
BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India	01/2021

PROJECTS

Enterprise Payments Data Integration & Analytics Dashboard (HCL Technologies)

- Architected and delivered an end-to-end **data integration solution** for a banking client's SWIFT messaging and payments operations platform, ingesting **ISO 20022 message flows** and transaction data from multiple sources into a centralized **data warehouse** using **AWS S3, AWS Glue, and Lambda**.
- Implemented **data pipelines** using **Python ETL** and **SQL** to extract, transform, and distribute payment transaction data across **PostgreSQL, Oracle, and MySQL** databases; built **Parquet** and **Delta Table** formats for optimized querying, improving query performance by **50%**.
- Developed **Power BI dashboards** and **operational reporting** interfaces for real-time transaction-flow visibility, SLA monitoring, and regulatory compliance alerting (GDPR, audit trails); enabled cross-functional collaboration with banking domain BAs, operations teams, and quality engineering across geographically distributed teams, reducing UAT cycle time by **30%**.

Ireland Jobs Tracker – AI-Powered Resume Automation & Deployment Pipeline (Personal Project)

- Engineered an end-to-end **data acquisition and workflow automation** system using **Claude API (Anthropic)**, **prompt engineering**, and structured JSON constraint guardrails to ingest job descriptions and generate tailored resume content at scale with **25% faster turnaround time**.
- Orchestrated **data integration** across disparate sources: web scraping via **Apify** → JD ingestion → **Claude-powered content generation** → **reportlab PDF** output, demonstrating hands-on expertise in building **scalable, high-performance distributed services** using **AI-assisted developer productivity tools**.
- Deployed full **CI/CD pipeline** using **GitHub Actions** for automated testing and **Vercel** cloud deployment, implementing **Infrastructure as Code** principles and rapid remediation workflows; delivered **3x improvement in content generation latency** through optimized prompt engineering and API integration.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
