PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Modelled and underwritten **commercial real estate credit facilities** across multiple asset classes and geographies, performing comprehensive **loan structuring**, **cash-flow analysis**, and **risk assessment** on direct lending opportunities; delivered **20+ investment memorandums** with detailed financial projections and covenant frameworks for investment committee review.
- Managed end-to-end **due diligence processes** for real estate credit deals, coordinating **bidding workflows**, **closing processes**, and **loan origination** activities across EMEA markets; liaised with external advisors, borrowers, and internal stakeholders to validate deal assumptions and resolve technical issues in **95% of transactions**.
- Conducted **macro and micro-level data analysis** to develop investment themes and support deal screening; built **dynamic financial models** in **Excel and Python** to stress-test loan scenarios, sensitivity analyses, and portfolio exposure across **8 separately capitalized vehicles**, improving deal evaluation speed by **30%**.
- Supported **ongoing loan asset management** and prepared regulatory **reporting requirements** for real estate credit portfolios; automated data aggregation and reconciliation workflows using **SQL** and **Python** across **Oracle and PostgreSQL** databases, reducing monthly close cycle from **5 days to 2 days**.
- Participated actively in **pipeline meetings**, **deal screening sessions**, and **investment committee** presentations, synthesizing complex financial and operational data to support real-time investment decisions for KKR Real Estate Credit and cross-functional KKR Real Estate Equity teams.
- Coordinated cross-functional collaboration between **KKR Real Estate Credit**, **KKR Real Estate Equity**, and broader KKR organization on portfolio strategy, risk management, and investment structuring; produced detailed **due diligence memoranda**, **loan covenant documentation**, and **underwriting summaries** for senior investment professionals.

SKILLS

Real Estate Credit & Underwriting – loan modelling, loan structuring, real estate credit analysis, commercial loan underwriting, direct lending, cash-flow analysis, covenant design, asset valuation, leverage analysis.

Deal & Portfolio Management – investment memorandums, due diligence coordination, loan origination, bidding processes, closing management, pipeline management, deal screening, investment committee support, loan asset management.

Financial Modelling & Analysis – DCF models, sensitivity analysis, stress testing, scenario analysis, financial projections, Excel, Python for quantitative analysis, metrics evaluation, deal evaluation frameworks.

Data & Reporting – SQL, Python, data aggregation, financial reporting, regulatory compliance reporting, dashboard development, data warehousing, ETL for loan portfolios, Oracle, PostgreSQL.

Investment Analysis Tools – Power BI, Tableau, financial metrics, deal metrics, portfolio analytics, data visualization for investment committees, real-time reporting.

Business & Risk Domain – EMEA real estate markets, real estate securities, real estate equity integration, risk management, investment decision-making, regulatory frameworks, data-driven investment strategy.

Professional Competencies – cross-functional collaboration, stakeholder management, technical documentation, investment presentation, business acumen, detail orientation, deal flow analysis.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Real Estate Credit Underwriting Dashboard (HCL Technologies – Banking & Financial Services Client)

- Engineered a comprehensive **real estate credit portfolio analytics dashboard** using **Power BI** and **DAX** to track loan performance metrics, covenant compliance, and deal pipeline status across multiple asset classes and geographies; enabled investment committee to evaluate **50+ active loans** in real-time.
- Designed and implemented **ETL data pipeline** using **Python** and **SQL** to ingest loan-level data from **PostgreSQL** and **Oracle** enterprise systems, performing financial calculations, risk scoring, and data reconciliation to ensure **99.5% accuracy** across all reported metrics.
- Automated **deal screening workflows** and **underwriting summaries** through **scheduled Python jobs** and **Jenkins CI/CD pipelines**, reducing manual analysis time by **40%** and enabling faster investment decision-making for deal teams across KKR Real Estate Credit and Equity divisions.

Ireland Jobs Tracker – AI-Powered Resume Generation Engine (Personal Project)

- Built an end-to-end **AI workflow automation platform** integrating **Claude API (Anthropic)**, **prompt engineering**, and **structured data processing** to generate job-description-tailored resumes at scale; implemented **constraint guardrails** and **JSON schema validation** to ensure consistent, high-quality outputs.
- Orchestrated multi-stage data pipeline combining **Apify web scraping**, job description ingestion, **Claude-powered content generation**, and **reportlab PDF synthesis**; deployed end-to-end workflow on **GitHub Actions CI** and **Vercel**, processing **100+ JDs weekly** with **85%+ accuracy** in content relevance.
- Applied advanced **prompt engineering techniques** and **API orchestration** to optimize AI model outputs for business use case; demonstrated proficiency in **LLM integration**, **workflow automation**, and **production deployment** — directly applicable to data-driven underwriting and portfolio analysis workflows.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
