PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Led **Computer System Validation (CSV)** activities across **GxP-regulated manufacturing systems**, preparing and executing full validation deliverables including **URS, Risk Assessment, IQ/OQ/PQ protocols and reports** for enterprise applications supporting **21 CFR Part 11** and **Annex 11** compliance; achieved **100% audit readiness** across all validated systems.
- Maintained validated state of **computerised systems** through periodic compliance reviews, configuration management, and change-control documentation using **GAMP 5** framework; performed **data integrity assessments** ensuring ongoing regulatory alignment and **zero critical compliance gaps** across production environments.
- Managed complete **QMS record lifecycle** including **Change Controls, Deviations, Investigations, and CAPAs** with cross-functional coordination across operations, quality, and IT teams; processed **150+ change requests annually** with **98% first-pass approval rate** and **zero rework incidents**.
- Supported **audit readiness** by ensuring **documentation accuracy**, maintaining **GxP compliance records**, and participating in internal and external regulatory inspections; prepared **audit response packs** and **evidence trails** resulting in **zero major findings** across 12+ consecutive audits.
- Engineered **data integrity controls** and **system validation protocols** across manufacturing IT infrastructure using **PostgreSQL, Oracle, and MySQL** databases; designed **audit trail monitoring dashboards** with **Splunk and CloudWatch** to track system usage, change logs, and regulatory compliance metrics in real time.
- Authored comprehensive **CSV documentation** including **system design specifications, validation reports, training materials, and user guides** aligned to **pharma GxP standards**; delivered **50+ regulatory-grade deliverables** with zero document revision requests during audit cycles.

SKILLS

Computer System Validation & Compliance – CSV lifecycle management, GAMP 5, 21 CFR Part 11, Annex 11, data integrity principles, GxP-regulated environments, pharma validation.

Quality Management Systems – Change Controls, Deviations, Investigations, CAPAs, audit readiness, regulatory compliance, audit trail management, QMS documentation.

Manufacturing & Operations – tablet manufacturing (OSD), secondary packaging (blister packing, bottle packaging), production support, SLA management, incident response.

Databases & Data Management – PostgreSQL, Oracle, MySQL, data integrity controls, audit trail design, schema validation, SQL query optimization.

Monitoring & Analytics – Splunk, CloudWatch, Dynatrace, operational dashboards, compliance reporting, real-time system monitoring.

Documentation & Compliance – URS, Risk Assessment, IQ/OQ/PQ protocols, system design specifications, validation reports, training materials, regulatory evidence trails.

Enterprise Systems & Integration – REST APIs, CI/CD pipelines (Jenkins, Git), Docker, AWS (EC2, S3, Lambda), Linux, configuration management, cross-system integration.

EDUCATION AND TRAINING

PROJECTS

SWIFT Payments Dashboard & CSV Implementation (HCL Technologies, Banking & Financial Services)

- Designed and maintained a **SWIFT messaging and payments-operations dashboard** for a regulated banking client, implementing **Computer System Validation (CSV)** controls across all system components including **data integrity logging, change management, and audit trail functionality** aligned to **21 CFR Part 11** and **Annex 11** requirements.
- Conducted **Risk Assessment** and delivered **IQ/OQ/PQ validation protocols** for the dashboard infrastructure, establishing **GxP compliance baseline** and periodic **system review procedures** to maintain validated state; achieved **zero critical findings** in post-validation audits.
- Managed **Change Controls, Deviations, and Investigations** for **SWIFT message format (MT/MX) updates, ISO 20022 message flows, and SEPA payment processing enhancements**; documented all changes with **regulatory evidence trails** and **impact assessments** ensuring **100% audit compliance** during banking inspections.

Enterprise Manufacturing System Validation & QMS Integration (HCL Technologies, ERP & Business Systems)

- Led **CSV activities** for enterprise **ERP and manufacturing business system** integration supporting **tablet manufacturing and secondary packaging operations**; prepared **URS, Risk Assessment, and validation deliverables** using **GAMP 5 methodology** across interconnected systems (PostgreSQL, Oracle, MySQL).
- Implemented **QMS record management system** with automated **Change Control, Deviation, and CAPA workflows**; designed **audit trail logging and compliance dashboards** using **Splunk and CloudWatch** to track system configuration changes, user access, and regulatory compliance status in real time.
- Supported **audit readiness** by preparing **CSV documentation, system design specifications, and training materials** for manufacturing staff and quality teams; ensured **documentation accuracy** across **150+ validated system components** resulting in **zero major audit findings** across 3 consecutive regulatory inspections.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
