PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed timely and accurate client billing across multiple legal entities, processing **150+ monthly invoices** for high-profile banking and financial services clients using **Oracle, PostgreSQL, and MySQL** databases; ensured strict adherence to month-end financial reporting deadlines and SOX compliance requirements.
- Owned client static data setup and ongoing maintenance for **25+ active accounts**, interpreting and implementing documented fee arrangements into billing systems; coordinated with Client Services, Business Operations, and Finance teams to capture new and terminated business within agreed SLA timelines.
- Executed collection of fee debtors on a timely basis, generating **payment instructions and banking entries** in line with company and client-authorized procedures; reduced collection cycle time by **18%** through process improvements and cross-functional escalation protocols.
- Performed month-end accruals and revenue recognition with meticulous attention to detail, ensuring **100% accuracy** against Financial Accounting deadlines; documented all fee-related entries with full audit trail visibility and internal control checkpoints to meet regulatory and SOX requirements.
- Served as Subject Matter Expert for fees-related internal and external audits, input to compliance projects, and changes to billing methodologies; liaised directly with banking-domain stakeholders and regulatory partners to ensure fee structures aligned with EMEA entity requirements and financial control frameworks.
- Demonstrated strong analytical and problem-solving capabilities by investigating billing delays, client queries, and finance discrepancies; provided timely resolution with comprehensive documentation and escalation to management and Business teams; built strong cross-functional relationships with Client Services and Operations partners in fast-paced, variable-deadline environments.

SKILLS

Financial Operations & Billing – Client billing, revenue recognition, accruals, month-end close, fee management, collection procedures, payment instructions, banking entries, SOX compliance.

Data & Systems – Oracle, PostgreSQL, MySQL, SQL ad-hoc queries, data validation, schema changes, static data maintenance, billing system configuration.

Analytics & Reporting – Power BI dashboards, DAX measures, data modelling, financial reporting, compliance reporting, audit trail documentation.

Business Operations – Client liaison and relationship management, change-control management, UAT coordination, new business capture, process improvement, cross-functional collaboration.

Regulatory & Compliance – SOX requirements, audit controls, GDPR, financial institution standards, EMEA entity compliance, regulatory documentation.

Core Competencies – Meticulous attention to detail, strong numerical and analytical skills, planning and organizational skills, problem-solving, written and verbal communication, advanced MS Excel, flexible approach to changing deadlines and workloads.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

SWIFT Payments Operations & Billing Dashboard (HCL Technologies)

- Captured, recognized, and billed fee revenue for a Fortune 500 banking client across multiple EMEA legal entities; managed **high-profile client accounts** with strict reporting deadlines and SLA compliance for payment operations visibility.
- Ensured correct interpretation of documented fee arrangements and maintained client static data; coordinated with banking-domain BAs, Client Services, Business Operations, and Financial Control teams to reflect all fee structures in legal books and billing systems.
- Performed month-end accruals and revenue closure for payments-operations workflows, ensuring **timely completion** to meet Financial Accounting deadlines; maintained **100% accuracy** in transaction-flow billing and reconciliation across **SWIFT MT/MX message formats** and **ISO 20022 payment flows**.
- Managed fee debtor collection and generated banking entries in accordance with company and client-authorized payment procedures; liaised with Client Services and Operations on new/terminated business capture and ensured accrual and invoicing within agreed timelines.

Enterprise ERP & Financial Systems Integration Support (HCL Technologies)

- Supported and integrated enterprise business systems including **ERP modules** and operational platforms used by banking and financial services clients; managed change-control processes for system configuration updates, UAT coordination, and post-go-live support.
- Executed cross-system integrations via **REST APIs** and database-level data flows across **PostgreSQL, Oracle, and MySQL** environments; ensured fee and billing data consistency across interconnected ERP, financial accounting, and operational systems.
- Investigated and resolved billing-related system queries and integration discrepancies through SQL analysis and application troubleshooting; documented issues, escalated critical items to management and business partners, and implemented process improvements to reduce future errors by **22%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
