PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed **ITSM queue** and **SLA adherence** for enterprise infrastructure incidents across **compute, storage, and cloud** platforms; resolved P1/P2 issues within defined SLAs through proactive diagnosis, troubleshooting, and escalation to vendors and internal teams using **Splunk, CloudWatch, and Dynatrace** monitoring solutions.
- Supported hybrid cloud infrastructure spanning **AWS (EC2, S3, Lambda)** and on-premise systems; implemented **change management processes** to document, test, and verify infrastructure changes across interconnected enterprise environments with UAT coordination and post-implementation validation.
- Remediated security vulnerabilities identified by cyber scanning tools and vendor security bulletins; maintained compliance posture through systematic patching, configuration hardening, and documentation of remediation efforts across heterogeneous infrastructure stacks.
- Developed and maintained comprehensive **knowledge base documentation** for infrastructure solutions, troubleshooting procedures, and operational runbooks; mentored junior team members on diagnostic methodologies and escalation workflows.
- Prepared accurate, timely reports on infrastructure incidents, change deployments, and system performance metrics; generated operational dashboards using **Power BI and Dynatrace** to visualize SLA compliance, incident trends, and resource utilization across EMEA and global regions.
- Participated in cross-functional infrastructure projects including architecture reviews, acquisition integration planning, and implementation of new/updated solutions; coordinated with geographically distributed teams across EMEA, NA, LATAM, and APAC to drive globalization of infrastructure services and ensure knowledge transfer.

SKILLS

Cloud Platforms & Virtualization – AWS (EC2, S3, Lambda, CloudWatch), Nutanix, VMware, Hyper-V, hybrid cloud architecture, cloud platform management.

Infrastructure & Systems Management – compute infrastructure, storage management (Dell Compellent, PowerStore, PowerScale, HPE Nimble), hardware platform management (Dell/HP servers), Windows Server administration, Active Directory, DNS, DHCP, Group Policy, Certificate Services.

Enterprise Monitoring & ITSM – Splunk, Dynatrace, CloudWatch, ITSM queue management, SLA management, incident response, problem diagnosis, environmental monitoring, change management.

Infrastructure Technologies – remote desktop services, high availability infrastructure, disaster recovery, backup strategies, software-defined storage, network infrastructure fundamentals.

Operational & Reporting Tools – Power BI, Dynatrace dashboards, operational reporting, knowledge base systems, documentation frameworks, ITIL best practices.

Scripting & Automation – Python scripting, Linux shell scripting, automation workflows, CI/CD pipelines with Jenkins, Git.

Data & Analytics – SQL (PostgreSQL, MySQL, Oracle), data analysis, ad-hoc reporting, metrics-driven decision making.

EDUCATION AND TRAINING

PROJECTS

Enterprise Banking Infrastructure Support & Monitoring (HCL Technologies)

- Delivered production support and round-the-clock monitoring for mission-critical financial services infrastructure serving enterprise banking clients; maintained **SLA compliance** for payments operations and SWIFT messaging systems using **Splunk and Dynatrace** with P1/P2 incident response protocols.
- Diagnosed and resolved infrastructure incidents across **compute, storage, and cloud** layers including **AWS EC2/S3** and on-premise systems; conducted root-cause analysis, documented solutions in knowledge base, and escalated complex issues to vendors with clear remediation workflows.
- Supported **change management processes** for infrastructure configuration updates, system upgrades, and security patches; coordinated **UAT** across interconnected enterprise business systems (ERP modules, payments platforms, operational databases) and validated post-implementation functionality with cross-functional teams.

Infrastructure Reporting & Knowledge Transfer Dashboard (HCL Technologies)

- Engineered operational dashboards using **Power BI and Dynatrace** to track **SLA compliance metrics**, incident resolution times, and infrastructure health across global regions (EMEA, APAC, NA, LATAM); enabled stakeholders to identify trends and optimize support delivery.
- Created comprehensive infrastructure documentation, runbooks, and troubleshooting guides; mentored junior team members on diagnostic methodologies, escalation procedures, and knowledge base contribution standards to drive team capability maturation.
- Prepared monthly reports on infrastructure incidents, change deployments, vulnerability remediation, and system performance; presented findings to infrastructure leadership and contributed to global infrastructure service globalization initiatives across Sysco Europe.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
