PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- First point of contact for enterprise equipment issues; diagnosed and resolved **hardware and software faults** across production systems using **ServiceNow ticketing, dashboard monitoring** (Splunk, CloudWatch, Dynatrace), and systematic troubleshooting—reducing mean-time-to-resolution by **30%** through rapid escalation and cross-team coordination.
- Managed onboard equipment lifecycle: replaced faulty **plug-in/plug-out devices**, SIM cards, and ticketing hardware; maintained accurate **equipment inventory records**, stock levels, and asset tracking across regional fleets using **ServiceNow** and dedicated operational apps; ensured **100% bus deployment readiness** by coordinating spare-equipment availability with local depot and station teams.
- Executed **software updates and health checks** on distributed onboard systems—verifying connectivity, authentication status, and software versions; tested new releases on ticket machines and communication devices; performed system resets and configuration updates to restore operability and prevent service delays.
- Produced **periodic operational reports** tracking equipment performance, fleet operational status, fault trends, and stock levels using **Power BI dashboards** and data aggregation from **ServiceNow**, enabling supervisors and maintenance teams to identify recurring issues and optimize repair cycles.
- Collaborated daily with **Maintenance, IT, Cash Office, AVL Control, Traffic Supervisors, and operations teams** to triage equipment failures, coordinate repairs with external suppliers, and ensure seamless handoffs between local depot staff and central support—maintaining SLA compliance and audit-trail documentation across interconnected business systems.
- Managed change control and post-implementation support for onboard system upgrades, including UAT coordination with operations teams, regression testing of ticket-machine downloads and revenue data uploads, and post-go-live monitoring to validate software stability and data integrity.

SKILLS

Frontline Technical Support – equipment troubleshooting, hardware diagnostics, software resets, configuration updates, device replacement, SIM card management, ticket-machine testing and repair.

Monitoring & Operational Systems – ServiceNow ticketing and alerts, system dashboards, health-check protocols, connectivity verification, software-version tracking, fleet operational status monitoring.

Equipment & Inventory Management – asset tracking, spare-equipment stock management, faulty-item logging and tagging, equipment-location records, replenishment coordination, daily availability assurance.

Reporting & Data Analysis – Power BI, operational dashboards, equipment-performance metrics, fleet-utilization reporting, fault-trend analysis, SLA tracking, data aggregation from ServiceNow.

Cross-Functional Collaboration – Maintenance teams, IT support, Cash Office operations, AVL Control, Traffic Supervisors, depot staff, external suppliers, change management and UAT coordination.

Technologies & Tools – ServiceNow, Power BI, Splunk, CloudWatch, Dynatrace, Linux, shell scripting, SQL, PostgreSQL, REST APIs, Docker, Git, Jira.

Certifications & Qualifications – MSc Data Analytics (NCI, Dublin), Bachelor of Engineering in Computer Science, IELTS Academic Band 7.

EDUCATION AND TRAINING

PROJECTS

SWIFT Payments Operations Dashboard & Fleet Equipment Monitoring (HCL Technologies)

- Delivered production support and continuous monitoring for enterprise banking and operational systems using **Splunk, CloudWatch, and Dynatrace dashboards**; maintained SLA compliance through P1/P2 incident response, systematic troubleshooting, and cross-team escalation protocols—directly parallel to onboard-equipment health-check and ServiceNow monitoring responsibilities.
- Managed equipment and system inventory records using **SQL (PostgreSQL, MySQL, Oracle)** and business-system integrations; tracked asset performance, fault logs, and configuration changes across interconnected enterprise platforms; produced operational reports and audit trails for compliance and regulatory oversight—mirroring fleet equipment-tracking and periodic reporting requirements.
- Coordinated change-control management for system updates, UAT testing, and post-go-live support across banking and payments-processing environments; collaborated with Maintenance, IT, Operations, and external suppliers to validate software stability and ensure seamless deployment—directly aligned with onboard-system software updates, health checks, and multi-team coordination.

Operational Reporting & Equipment Performance Analytics (MSc Data Analytics, NCI)

- Built **Power BI dashboards** with **DAX measures** and **Power Query ETL** to aggregate, transform, and visualize operational metrics including equipment status, fleet utilization, fault trends, and stock levels; delivered published reports to business stakeholders for data-driven decision-making—directly applicable to periodic operational reporting on equipment performance, fleet operational percentages, and recurring-issue identification.
- Performed **data modelling, exploratory data analysis, and statistical analysis** (regression, hypothesis testing) on equipment and system performance datasets; identified patterns, anomalies, and actionable insights to optimize maintenance cycles and reduce mean-time-to-resolution.
- Designed end-to-end data pipelines using **Python (pandas, NumPy)** and **SQL** to extract, validate, and load equipment inventory and operational data; ensured data accuracy and completeness for dashboard visualizations and compliance-driven audit trails.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
