## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Reviewed and assessed data accuracy against client policies and compliance requirements across enterprise business systems, identifying and flagging discrepancies for remediation; maintained **99.2% accuracy rate** in data validation workflows supporting SLA commitments.
- Engaged with business stakeholders via outbound phone calls and written communication to verify information, update client platforms, and resolve data integrity issues; coordinated with cross-functional teams including business analysts and operations to ensure timely resolution of customer requests.
- Demonstrated adaptability and attention to detail while managing repetitive data review tasks in a dynamic, fast-paced environment; prioritized multiple concurrent requests using **Jira ticketing** and maintained focus on high-accuracy output across **500+ monthly reviews**.
- Applied problem-solving and judgment to assess data quality against business rules; documented findings in **Confluence** and communicated recommendations to stakeholders for process improvements and policy clarifications.
- Adhered to all compliance and regulatory requirements including data protection, audit trail management, and customer privacy standards; ensured all data handling procedures met organizational and jurisdictional compliance frameworks.
- Exercised excellent verbal and written communication skills with business stakeholders, predominantly via outbound phone calls; conducted UAT support coordination and post-implementation triage to facilitate successful client platform updates and system integrations.

## SKILLS

**Core Competencies** – Data accuracy review, policy compliance assessment, business data verification, customer engagement, attention to detail, adaptability, problem-solving.

**Communication & Stakeholder Management** – Outbound phone calls, written communication, cross-functional collaboration, UAT coordination, customer-facing engagement.

**Business Systems & Tools** – Jira ticketing and defect tracking, Confluence documentation, ERP business system knowledge, customer platform navigation and updates.

**Compliance & Data Governance** – Data protection, regulatory compliance, audit trail management, customer privacy standards, change-control procedures.

**Data & Analytics** – SQL query and data validation, business data analysis, Power BI dashboards, Tableau reporting, data modelling.

**Enterprise Technology** – REST API integrations, PostgreSQL/MySQL/Oracle databases, CloudWatch monitoring, application support, production environment troubleshooting.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

## **PROJECTS**

### **SWIFT Payments Operations & Data Verification Dashboard (HCL Technologies)**

- Reviewed and validated transaction data accuracy against SWIFT messaging standards (**MT/MX message formats**) and ISO 20022 compliance requirements; assessed data quality to ensure customer information and payment details met banking client policies and regulatory standards.
- Engaged with banking operations teams and business analysts via structured communication to verify payment message content, identify data discrepancies, and coordinate updates to the operational dashboard; supported UAT coordination and post-go-live triage for data accuracy improvements.
- Maintained **99.5% data accuracy** across SEPA, cross-border payment, and instant payment transaction flows; demonstrated problem-solving to resolve recurring data validation issues and recommended process enhancements to stakeholders for policy compliance.

### **Enterprise Business System Data Quality & Change Management Support (HCL Technologies)**

- Reviewed business data across ERP and enterprise business systems to assess accuracy and compliance with system configuration policies; coordinated with cross-functional teams to verify customer and business information updates across interconnected PostgreSQL, MySQL, and Oracle databases.
- Applied adaptability and attention to detail in a fast-paced, multi-stakeholder environment; managed ticketing workflows in **Jira**, documented data findings in **Confluence**, and communicated judgment-based recommendations to business analysts and operations teams for system configuration changes.
- Supported change-control management procedures by reviewing data integrity before and after system updates; conducted customer engagement via phone and written communication to verify business information, update client platforms, and ensure compliance with data protection and audit requirements.

## **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
