PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Provided **hardware and software support** for enterprise desktops, laptops, and peripherals across banking and ERP environments, resolving **P1/P2 support requests** and reducing escalations by **40%** through proactive troubleshooting and root-cause analysis.
- Implemented and modified **MS Office applications** and enterprise software based on user needs and business requirements, ensuring **100% patch compliance** across all desktop and laptop estates through automated deployment pipelines and change-control workflows.
- Updated all user queries through **incident logging systems** (Jira ticketing and Confluence documentation), maintained SLA adherence for hardware/software incidents, and executed follow-ups with users to confirm resolution and satisfaction.
- Built and deployed **new PCs and laptops** with standardized OS imaging, security hardening, and application pre-configuration for **50+ enterprise users** across banking operations and ERP support teams.
- Collaborated with IT Services teams and business stakeholders to gather hardware/software requirements, coordinate UAT for application updates, and manage post-implementation support for enterprise-level systems including **ERP modules and business-critical applications**.
- Maintained **Linux, Windows, and cloud infrastructure** documentation, created troubleshooting runbooks, and performed log analysis and shell scripting to automate routine hardware provisioning and software patching tasks.

SKILLS

Hardware & Software Support – PC builds and deployment, Laptop provisioning, Printer configuration, Peripheral management, Hardware troubleshooting.

Microsoft Support – MS Office suite, Windows OS patching and updates, Active Directory integration, Software licensing management.

IT Support & Ticketing – Incident logging systems, Jira ticketing, SLA management, Problem-solving, User communication and follow-up.

System Administration & Deployment – OS imaging and standardization, Application deployment, Patch management, Security hardening, Change-control processes.

Enterprise Systems – ERP support and integration, Business-system user support, Cross-system interoperability, UAT coordination.

Infrastructure & Scripting – Linux administration, Shell scripting, Windows Server, CloudWatch monitoring, Docker containerization.

Technical Qualifications – IT fundamentals, ITIL incident management, Enterprise IT service delivery.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Banking Enterprise Hardware & Software Support (HCL Technologies)

- Supported **hardware and software infrastructure** for a large banking client's user base, managing desktop/laptop provisioning, OS patching, and application deployment across enterprise environments with strict security and regulatory compliance requirements.
- Resolved **hardware and software support requests** prior to escalation by diagnosing device failures, applying security patches, and reconfiguring applications; maintained detailed **incident logging** records in Jira and escalated critical P1 issues to senior technical teams.
- Built new **PCs and laptops** with standardized imaging, pre-installed enterprise applications (MS Office, ERP clients, banking-domain software), and security configurations; ensured all deployed devices met GDPR and regulatory compliance standards for financial-services operations.

ERP & Enterprise Business Systems Technical Support (HCL Technologies)

- Provided **technical support for ERP modules and enterprise business systems** used by banking and operations teams, resolving application issues, implementing configuration changes, and coordinating UAT for system updates and new feature deployments.
- Managed **change-control workflows** for hardware upgrades and software patches across interconnected enterprise systems; collaborated with IT Services and business stakeholders to minimize downtime and ensure user continuity.
- Maintained comprehensive **user guides and troubleshooting documentation** in Confluence; delivered hands-on support to business users and followed up on all resolved tickets to confirm needs were met and satisfaction achieved.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
