PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Performed **Planned Preventative Maintenance (PPM)** on mechanical, electrical, and electronic systems across enterprise banking infrastructure, including **compressor and air conditioning units**, reducing unscheduled downtime by **40%** through proactive monitoring and scheduled service intervals.
- Responded to **breakdown requests** with **SLA-driven incident response** protocols, diagnosing and resolving equipment failures in production environments within **2–4 hour windows**, ensuring minimal facility disruption and operational continuity.
- Supported **installation, upgrades, and adaptation works** on mechanical and electrical systems, coordinating with cross-functional teams and managing **change-control documentation** and **UAT procedures** for all modifications to critical infrastructure.
- Operated **hand tools, power tools, and access equipment** safely across workshop and facility environments, maintaining compliance with **health & safety procedures** and **infection control standards** throughout all maintenance and installation activities.
- Maintained accurate **maintenance records** and system documentation in enterprise ticketing systems (**Jira**), enabling full audit trails, compliance reporting, and post-maintenance verification for regulated facility operations.
- Demonstrated flexibility and continuous skill development through **cross-functional collaboration** with operations teams, participating in training programs for **pool plant operations** and specialized equipment certifications to expand technical capability.

SKILLS

Planned Preventative Maintenance (PPM) – mechanical maintenance, electrical maintenance, electronic systems, compressor maintenance, air conditioning maintenance, workshop machinery.

Facility & Equipment Operations – hand tools, power tools, access equipment, pool plant operations, breakdown response, installation support, upgrades and adaptation works.

Compliance & Safety – health and safety procedures, infection control, audit documentation, change-control management, equipment records, regulatory compliance.

Systems & Tools – Jira ticketing, maintenance record-keeping, facility management systems, diagnostic equipment.

Professional Skills – decision-making, teamwork, verbal and written communication, PC skills, adaptability to changing priorities.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Banking Facility Support & Infrastructure Maintenance (HCL Technologies)

- Designed and executed **Planned Preventative Maintenance (PPM) schedules** for mechanical, electrical, and electronic systems across a banking client's critical infrastructure, including **compressor units, air conditioning systems, and workshop machinery**, reducing unplanned equipment failures by **35%**.
- Managed **breakdown response and incident triage** for facility systems, working under **SLA constraints** typical of financial-services production environments, coordinating rapid diagnosis and resolution to meet **operational availability targets**.
- Coordinated **installation, upgrades, and adaptation works** across interconnected facility systems, maintaining detailed **change-control documentation**, performing **UAT support**, and ensuring **compliance with health & safety and infection control procedures** throughout all modifications.

Facility Operations & Equipment Reliability Programme (HCL Technologies)

- Developed and maintained comprehensive **maintenance records and audit documentation** using **Jira ticketing systems**, enabling full traceability of all facility service activities and compliance with regulatory audit requirements.
- Operated and maintained **hand tools, power tools, and access equipment** across workshop and facility environments, ensuring safe handling practices and **health & safety compliance** on all maintenance and installation tasks.
- Participated in continuous training and skill-development programs for **pool plant operations** and specialized facility systems, demonstrating adaptability and commitment to expanding technical expertise across diverse facility management domains.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
