PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed and maintained operational readiness of enterprise infrastructure devices and systems at **HCL Technologies**, ensuring **99.5% uptime** through daily pre-start checks, preventative maintenance scheduling, and proactive monitoring using **Splunk, CloudWatch, and Dynatrace**.
- Conducted weekly preventative maintenance (PM) and stock management across enterprise systems, including inventory tracking, parts ordering, and vendor coordination — reducing unplanned downtime by **40%** through systematic PM schedules and documentation.
- Prepared and distributed **weekly status reports** to clients and internal IT leadership, detailing operational metrics, maintenance activities, and system health — ensuring transparency and accountability across multi-stakeholder environments.
- Provided reliable, punctual, and hardworking 24/7 production support and incident response for enterprise applications, managing **P1/P2 SLA-critical incidents** with excellent communication and coordination across cross-functional teams (BAs, operations, banking client stakeholders).
- Supported post-implementation operations and change-control management for enterprise business systems (ERP, payments platforms, interconnected infrastructure), including UAT coordination, system configuration updates, and post-go-live triage with strong attention to detail and organisational discipline.
- Demonstrated flexibility and adaptability across multiple technical and operational domains — transitioning seamlessly from production support to data automation to system integrations — while maintaining reliability and multitasking across concurrent SLA-critical responsibilities.

SKILLS

Infrastructure & Device Support – printer and device management, preventative maintenance (PM), stock control and parts ordering, daily operational readiness, system monitoring.

Operational Support & Facilities – post-room administration, client-facing support, cross-functional coordination, facilities operations, change-control management.

Monitoring & Reporting – weekly status reports, operational metrics, Splunk, CloudWatch, Dynatrace, incident tracking, Jira, SLA management.

IT Systems & Infrastructure – enterprise application support, ERP systems, business system integrations, Linux, shell scripting, configuration management.

Customer Service & Communication – client-facing support, excellent communication skills, stakeholder coordination, people skills, UAT support, post-implementation triage.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Banking & Payments Operations Dashboard (HCL Technologies)

- Managed daily operational readiness and preventative maintenance of SWIFT messaging and payments-operations infrastructure supporting a tier-1 banking client, ensuring **24/7 availability** and transaction-flow visibility across payment systems.
- Conducted **weekly preventative maintenance** and system health checks on interconnected payment processing platforms (SWIFT MT/MX message flows, ISO 20022 compliant systems, SEPA infrastructure), maintaining **99.8% uptime SLA** through disciplined scheduling and proactive monitoring.
- Prepared and delivered **weekly operational status reports** to banking client leadership and internal IT teams, detailing transaction volumes, system health metrics, maintenance activities, and regulatory compliance posture (GDPR, audit trail integrity) — enabling stakeholder confidence and decision-making.

Multi-System Operational Support & Change Management (HCL Technologies)

- Provided reliable, 24/7 production support for enterprise ERP systems and interconnected business platforms serving financial-services clients, managing incident response, post-go-live triage, and system configuration updates with strong attention to detail and organisational discipline.
- Coordinated cross-functional change-control management and UAT support across multiple interconnected systems (ERP, payments platforms, data warehousing infrastructure), liaising with banking-domain business analysts, operations teams, and regulatory stakeholders to ensure seamless system changes and post-implementation stability.
- Supported post-room and operational workflows integrated with enterprise business systems, demonstrating flexibility and adaptability across technical and administrative responsibilities — multitasking incident response, change coordination, and operational reporting while maintaining **SLA compliance** and excellent communication with end users.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
