PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Maintained and updated **Master Data** in enterprise ERP systems (**Business Central**-equivalent platforms) for finance and accounting functions; coordinated with accounting teams to ensure data integrity, regulatory compliance, and monthly group reporting accuracy across multi-subsidiary environments.
- Developed and deployed **CSV Ports** and **system interfaces** to integrate accounting applications with core finance ERP; designed data-mapping logic, tested end-to-end flows, and documented interface specifications for cross-functional stakeholder handoff and post-implementation support.
- Supported **ERP roll-out projects** to new subsidiaries by configuring finance modules, establishing master data baselines, conducting UAT coordination, and managing post-go-live issues; delivered **3 subsidiary migrations** with zero critical audit findings.
- Documented and improved accounting processes and systems landscape by creating **process workflows**, **system integration diagrams**, and **user guides** in Confluence; reduced manual accounting tasks by **20%** through process optimization and automation recommendations.
- Supported **monthly group reporting** and **audit requirements** by preparing system reconciliation reports, validating transaction flows, managing data exports via **SQL queries**, and ensuring **GDPR** and regulatory compliance controls across finance systems and interconnected applications.
- Managed **dunning** and **accounts receivable process** system support by troubleshooting payment-status exceptions, resolving transaction discrepancies, and coordinating with finance teams on workflow configuration; handled **P1/P2 incidents** in production finance systems with SLA adherence of **98%+**.

SKILLS

ERP & Finance Systems – Business Central, Master Data management, accounting module configuration, finance process design, multi-subsidiary implementation.

Systems Integration & Interfaces – CSV Ports, REST API integrations, data mapping, ETL pipeline design, cross-system reconciliation.

Data & Analytics – SQL (PostgreSQL, MySQL, Oracle), data validation, reconciliation reporting, Power BI dashboards, DAX measures.

IT Project Management – ERP roll-out coordination, UAT planning and execution, change-control management, stakeholder communication, post-implementation support.

Accounting & Finance Domain – GDPR compliance, audit support, month-end reporting, group consolidation, dunning workflows, payment processing.

Development & Debugging – Python scripting, SQL optimization, Shell scripting, Git version control, Jenkins CI/CD, Linux troubleshooting.

Process Documentation & Communication – Confluence documentation, process workflow design, user guides, cross-functional workshop facilitation.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Finance ERP System Modernization & Master Data Migration (HCL Technologies)

- Led **Master Data cleanup** and consolidation for a multinational banking client's finance ERP transition; designed **CSV import templates** and validation rules to migrate **45,000+ GL accounts**, cost centers, and vendor records with zero discrepancies.
- Developed **system interface specifications** and **data-mapping logic** to integrate legacy accounting systems with core ERP via REST APIs and scheduled batch exports; documented **12 critical interfaces** covering AR/AP/GL flows.
- Coordinated **UAT and roll-out** across **8 subsidiary entities** in SEPA regions; prepared finance-team user guides, conducted training sessions, and resolved **60+ post-go-live configuration issues** to meet month-end reporting deadlines.

Payments Operations Dashboard & Accounting Process Automation (HCL Technologies)

- Supported development of a **SWIFT messaging dashboard** with real-time **transaction-flow visibility** and automated **dunning alerts** for a banking client; configured **Splunk** and **CloudWatch** monitoring to surface payment-status exceptions and accounting reconciliation failures.
- Designed and documented **accounting process workflows** to translate banking operational requirements into finance system configuration; reduced manual transaction reconciliation by **25%** through automated exception reporting and alert escalation.
- Built **Power BI dashboards** for month-end group reporting and audit support, ingesting data via **SQL queries** on Oracle and PostgreSQL; delivered **5 KPI reports** tracking payment SLAs, audit-trail completeness, and **GDPR data-retention compliance** across multi-entity environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
