PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Resolved **500+** critical production support tickets across enterprise **Java Spring Boot, Python, and .NET** applications, maintaining **96%+ customer satisfaction** and **100% SLA compliance** through first-response troubleshooting and root-cause analysis in **Linux** server environments, **terminal debugging**, and **Nginx/application configuration** analysis.
- Debugged and triaged technical issues on live infrastructure using **Splunk, CloudWatch, and Dynatrace**, reading error logs, analyzing stack traces, and identifying configuration failures; documented **50+** reproducible bugs with sufficient technical detail for engineering escalation, contributing to **80% first-response resolution rate**.
- Managed enterprise banking infrastructure supporting **SWIFT messaging** (MT/MX formats), **ISO 20022 message flows**, **SEPA/instant payments**, and **cross-border payment operations**; provided **24/7 production support** for payment-processing systems where SLA adherence, audit trails, and regulatory compliance were non-negotiable, serving financial-services customers in **CET/EU hours**.
- Identified patterns across support tickets—recurring configuration errors, missing documentation, feature gaps—and contributed **15+ knowledge base articles** and operational runbooks that reduced repeat tickets by **35%** and improved team efficiency for **ERP integrations, REST API debugging, and CI/CD pipeline troubleshooting**.
- Diagnosed and resolved **DNS configuration issues, server deployment failures, PHP application errors, and infrastructure scaling problems** through hands-on **SSH access**, log analysis, and shell scripting; liaised with cross-functional teams (BAs, operations, engineering) to coordinate escalations and ensure customer alignment throughout resolution cycles.
- Maintained **100% SLA commitments** across incoming support queues using ticketing systems and severity-based triage; adapted to evolving communication channels and customer needs while delivering empathetic, technically accurate responses that built long-term customer trust and positive support experiences.

SKILLS

Server & Infrastructure Support – Linux terminal debugging, SSH access, Nginx configuration, DNS troubleshooting, server deployment, log analysis, shell scripting, cron jobs.

Application Debugging & Monitoring – Java Spring Boot, Python, .NET, REST API debugging, error log analysis, stack trace interpretation, Splunk, CloudWatch, Dynatrace, application monitoring.

Databases & Configuration – PostgreSQL, MySQL, Oracle, SQL query analysis, schema troubleshooting, data validation, configuration file debugging.

Cloud & DevOps Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker containerization, CI/CD pipelines, Jenkins, Git, configuration management.

Payments & Financial Systems Domain – SWIFT messaging (MT/MX), ISO 20022 message flows, SEPA/instant payments, cross-border payments, payment operations, PSD2, GDPR, regulatory compliance, banking infrastructure, change-control management.

Knowledge Management & Documentation – Technical ticket triage, knowledge base authoring, runbook creation, saved-reply development, training material composition, Confluence.

Customer Success & Support Operations – SLA management, incident response (P1/P2), customer satisfaction measurement, first-response troubleshooting, escalation coordination, cross-functional collaboration.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin	02/2026
BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India	01/2021

PROJECTS

SWIFT Messaging & Payments Operations Dashboard (HCL Technologies)

- Provided **24/7 production support** and real-time monitoring for enterprise **SWIFT messaging** (MT/MX formats) and **payment-operations dashboard** serving a Tier-1 banking client; resolved **300+** incidents spanning **transaction-flow visibility**, **operational alerting**, and payment-message routing issues with **98%+ first-response resolution**.
- Debugged **ISO 20022 message structure** failures, **SEPA/cross-border payment** processing errors, and infrastructure misconfigurations using **Splunk dashboards**, **log analysis**, and **SQL data validation**; documented **25+ technical runbooks** covering common payment-reconciliation, tokenization, and regulatory-compliance scenarios.
- Coordinated UAT support and post-go-live incident triage with banking-domain business analysts, operations teams, and regulators; ensured **100% SLA adherence** for critical payment-processing flows and contributed customer insights that shaped product enhancements across the payments platform.

Enterprise ERP Integration Support & Change Management (HCL Technologies)

- Managed technical support for enterprise business-system integrations across **ERP modules**, **REST APIs**, and interconnected databases (PostgreSQL, Oracle, MySQL); diagnosed and resolved **200+** integration failures, configuration errors, and data-sync issues impacting business-critical workflows.
- Executed **change-control management** for system configuration updates and post-implementation support; coordinated **UAT** across multiple stakeholder teams, identified cross-system integration issues, and documented technical release notes and operational procedures that reduced post-deployment incidents by **40%**.
- Built **SQL-based diagnostic queries** and **Python automation scripts** to validate data flows, surface integration discrepancies, and generate operational reports; created **troubleshooting guides** for common ERP configuration, API authentication, and data-mapping problems that became standard support knowledge base references.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
