PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Configured and managed **Microsoft Entra ID (Azure AD)** for identity governance, conditional access policies, and multi-factor authentication (MFA) across enterprise banking environments; implemented **Privileged Identity Management (PIM)** and **role-based access controls (RBAC)** for 500+ users across interconnected payment-operations systems, reducing unauthorized access incidents by **90%**.
- Deployed and managed **Microsoft Intune** for device compliance, application deployment, and endpoint configuration across production banking infrastructure; enforced **Zero Trust principles** across identity, devices, and applications in alignment with **Microsoft Defender XDR solutions** including **Defender for Endpoint** and **Defender for Office 365**.
- Monitored and responded to security alerts using **Microsoft Sentinel** and **Splunk SIEM** tools; led **security incident response** investigations for **P1/P2** production incidents in banking environments, documenting threat evaluation, remediation strategies, and post-incident reviews for regulatory compliance (GDPR, Data Protection).
- Provided **Level 3 ICT support** and third-line incident management aligned with **ITIL best practices**; managed **Incident Management**, **Service Request**, and **Problem Management** workflows using **Jira** ticketing system; maintained **Knowledge Management** documentation, SOPs, and runbooks for Azure security configurations and **Microsoft Purview Information Protection** policies.
- Applied **Azure security best practices** including network security groups, firewalls, encryption, and **Information Protection** controls across cloud infrastructure; participated in **Change Advisory Board (CAB)** and Problem Management meetings; led **change management** initiatives for identity and endpoint security deployments with zero SLA breaches.
- Demonstrated advanced **cybersecurity awareness** across phishing prevention, **Identity and Access Management (IAM)**, **Multi-Factor Authentication (MFA)**, and the **Zero Trust Security Model**; collaborated with cross-functional ICT technical specialists and banking compliance teams to research current technology solutions and translate them into secure production environments.

SKILLS

Identity & Access Management – Microsoft Entra ID (Azure AD), Privileged Identity Management (PIM), role-based access controls (RBAC), Multi-Factor Authentication (MFA), conditional access policies, Identity governance.

Endpoint & Device Management – Microsoft Intune, device compliance, application deployment, endpoint configuration, Microsoft Defender for Endpoint.

Security Operations & SIEM – Microsoft Sentinel, Splunk, Dynatrace, security alert monitoring, threat evaluation, security incident response, Microsoft Defender XDR, Defender for Office 365.

Cloud Security & Zero Trust – Azure security best practices, network security groups, firewalls, encryption, Zero Trust principles, Microsoft Purview Information Protection.

ITIL & Service Management – Incident Management, Service Request Management, Problem Management, Change Advisory Board (CAB), Change Management, continual service improvement, Knowledge Management, SOP documentation, runbooks.

Cybersecurity Frameworks & Compliance – phishing awareness, Identity and Access Management, Multi-Factor Authentication, Zero Trust Security Model, GDPR, Data Protection, regulatory compliance, SWIFT messaging (MT/MX), ISO 20022.

Enterprise Technologies & Support – Java Spring Boot, Python, SQL (PostgreSQL, MySQL, Oracle), AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git, Jenkins, REST APIs, ERP systems, banking domain systems.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin	02/2026
--	----------------

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India	01/2021
---	----------------

PROJECTS

SWIFT Payments-Operations Security Dashboard & Incident Response (HCL Technologies)

- Architected and maintained a **Microsoft Entra ID (Azure AD)**-integrated **SWIFT messaging (MT/MX) and payments-operations dashboard** for a Tier-1 banking client, implementing **Privileged Identity Management (PIM)** for privileged access to payment-reconciliation workflows and **conditional access policies** for regulatory-compliant user authentication.
- Configured **Microsoft Defender XDR** solutions (**Defender for Endpoint, Defender for Office 365**) and **Microsoft Sentinel SIEM** integration to monitor **security alerts** across payment-message processing pipelines; conducted **security incident response** investigations for **P1/P2** threats with **threat evaluation** and **remediation strategies** documented for audit trails and **GDPR/Data Protection** compliance.
- Implemented **Zero Trust principles** across identity, devices, and applications in the payments environment; enforced **Microsoft Purview Information Protection** policies for sensitive **ISO 20022 message flows** and **SEPA instant-payment** data; maintained comprehensive **Knowledge Management documentation, SOPs**, and **runbooks** for **Incident Management, Problem Management**, and **Change Management** aligned with **ITIL best practices**.

Enterprise ERP & Business Systems Access Governance (HCL Technologies)

- Designed and deployed **Microsoft Intune** device compliance and **Entra ID** role-based access controls (RBAC) across interconnected ERP and business-system infrastructure supporting 500+ banking operations users; implemented **MFA** enforcement and **conditional access policies** to enforce **Zero Trust Security** principles across identity and device layers.
- Led **Level 3 ICT support** for ERP system access and identity-related incidents; managed **Service Request** and **Problem Management** workflows using **Jira** ticketing; coordinated cross-functional **Change Advisory Board (CAB)** meetings to govern **change management** for identity and access policy updates across interconnected systems.
- Established **Azure security best practices** including encryption and network security controls for ERP data flows; created **SOP documentation** and **runbooks** for **Incident Management**, access troubleshooting, and phishing-awareness training aligned with **ITIL service management** and **GDPR/Data Protection** regulatory requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)

- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
