PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Owned **end-to-end delivery and production support of financial services data products** across a global banking client environment, ensuring **100% SLA compliance** for critical SWIFT messaging and payments operations dashboards through proactive monitoring, root cause analysis, and continuous issue remediation using **Splunk, CloudWatch, and Dynatrace**.
- Translated **complex financial domain business logic** into actionable **functional and technical specifications**, including ISO 20022 message flows, SEPA payment mappings, and cross-border transaction validation rules, partnering with business stakeholders and engineering teams to align implementations with regulatory requirements and operational intent.
- Executed **BAU data provisioning and onboarding** with **hands-on SQL analysis** across **PostgreSQL, MySQL, and Oracle** databases, performing data quality assessments, validating transformation logic, decomposing complex ETL workflows, and driving resolution of **P1/P2 production data incidents** through root cause investigation and prevention of recurring issues.
- Supported **Agile delivery models** through active participation in backlog refinement, sprint planning, story breakdown, acceptance criteria definition, and release readiness across interconnected financial services platforms, enabling cross-functional data and technology teams to deliver reliable, high-quality data products on schedule.
- Managed **enterprise business systems integrations** and **change-control workflows** for financial services ERP and operational platforms, coordinating UAT, post-go-live support, and system configuration updates across **REST APIs** and database-level data flows while maintaining audit trails and **GDPR / Data Protection compliance**.
- Developed **operational reporting dashboards and data visualizations** using **Power BI** and **Tableau** to enable business stakeholders with real-time visibility into transaction flows, payment message processing, and data quality metrics, supporting data-driven decision-making across payments operations and financial services teams.

SKILLS

Financial Services & Capital Markets Domain – SWIFT messaging (MT/MX formats), ISO 20022 message flows, SEPA payments, cross-border payments, PSD2 Open Banking, payments processing workflows, transaction reconciliation, regulatory compliance (GDPR, Data Protection), audit trail management, SLA governance.

Data Management & SQL – SQL query optimization, data onboarding, data quality assessment, schema validation, ETL pipeline design, data transformation logic, PostgreSQL, MySQL, Oracle, data warehousing, data modelling.

Business Systems & Integration – ERP integration support, enterprise business systems, REST API integrations, change-control management, UAT coordination, cross-system data flows, system configuration, post-implementation support.

Business Intelligence & Reporting – Power BI (dashboards, DAX measures, data modelling, Power Query), Tableau (interactive dashboards, data visualisation), operational reporting, business analytics, stakeholder reporting.

Production Support & Monitoring – Splunk, CloudWatch, Dynatrace, incident response, SLA management, root cause analysis, proactive issue identification, performance monitoring, alerting, log analysis.

Agile & Delivery – Agile delivery models, backlog refinement, sprint planning, story breakdown, acceptance criteria definition, release readiness, Jira, Confluence, cross-functional collaboration.

Technical Skills – Python, Java, Spring Boot, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Git, Jenkins, CI/CD pipelines, shell scripting.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin	02/2026
--	----------------

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India	01/2021
---	----------------

PROJECTS

Financial Services SWIFT Messaging & Payments Operations Dashboard (HCL Technologies)

- Delivered **end-to-end technical business analysis** and production support for a global banking client's SWIFT messaging and payments operations platform, owning data provisioning, transaction-flow visibility, and operational alerting for critical payment message processing.
- Translated **ISO 20022 message structures, SEPA payment flows, and cross-border transaction requirements** into technical specifications and **SQL-based data validation rules**, ensuring accurate reconciliation workflows and regulatory compliance across interconnected banking systems.
- Performed continuous **data quality monitoring and root cause analysis** on payment transactions using **Splunk and CloudWatch**, identifying and resolving issues affecting SLA adherence while maintaining **100% audit trail accuracy** for regulatory reporting.

Enterprise Business Systems Data Analytics & Reporting (HCL Technologies & MSc Data Analytics)

- Designed and deployed **operational Power BI dashboards and Tableau visualizations** for banking and ERP platform stakeholders, delivering real-time visibility into business process metrics, transaction volumes, system performance, and data quality indicators to drive informed decision-making.
- Analyzed **complex enterprise system integrations** across ERP modules and operational platforms, decomposing business logic into **functional specifications and technical data mappings** using **SQL, Python, and ETL pipeline design** to ensure seamless cross-system data flows and change-control compliance.
- Supported **Agile UAT coordination and post-go-live delivery** across interconnected financial services systems, conducting **data validation testing, acceptance criteria definition, and release readiness assessments** while collaborating with business teams, engineering, and operations to resolve integration and configuration issues.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
