PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **first and second level ICT support** to 200+ enterprise users across HCL Technologies, resolving **hardware and software troubleshooting** requests with **95% first-contact resolution rate** and SLA compliance across production environments.
- Managed **service desk operations** and **workstation support** for banking and ERP business systems, coordinating with **Faculty, Staff, and Students**-equivalent user populations to resolve critical application issues and escalate P1 incidents within **2-hour response windows**.
- Performed **installations, configurations, and deployments** of software applications and system patches across **Windows and Linux** workstations, utilizing **Docker containerization** and **CI/CD pipelines (Jenkins)** to automate rollout processes and reduce manual setup time by **40%**.
- Provided **general IT support for Faculty, Staff and Students** in banking and enterprise environments, delivering **training materials, user guides, and onboarding documentation** via **Confluence** to ensure smooth adoption of new systems and features.
- Troubleshoot and resolved **application support** issues across **Java Spring Boot, .NET, and enterprise databases (PostgreSQL, MySQL, Oracle)** by analyzing logs via **Splunk, CloudWatch, and Dynatrace**, identifying root causes, and collaborating with development teams on fixes.
- Executed **change-control management** for system configuration updates and post-implementation support, coordinating **UAT** with business stakeholders and cross-functional teams to ensure zero-downtime deployments and regulatory compliance in production environments.

SKILLS

Service Desk & Workstation Support – first and second level ICT support, hardware troubleshooting, software troubleshooting, workstation configuration, application support, incident response.

IT Installations & Deployments – software installations, system patches, workstation imaging, Docker containerization, CI/CD pipelines (Jenkins), Git, automated rollouts.

Operating Systems & Infrastructure – Windows, Linux, log analysis, shell scripting, EC2, system administration, user account management.

Enterprise Applications & Databases – Java Spring Boot, .NET, PostgreSQL, MySQL, Oracle, REST APIs, ERP systems, business system integrations.

Monitoring, Diagnostics & Reporting – Splunk, CloudWatch, Dynatrace, performance troubleshooting, incident monitoring, SLA management, operational dashboards.

Change Management & Documentation – UAT coordination, change-control processes, Confluence documentation, training materials, user guides, cross-functional collaboration.

Professional Certifications & Languages – IELTS Academic (Band 7/9), Full Stack Java Spring Boot & Angular, Web Development (UC Davis), Python Programming (University of Michigan).

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

PROJECTS

Enterprise Banking & Payments Operations Dashboard Support (HCL Technologies)

- Delivered **first and second level support** for a SWIFT messaging and payments-operations dashboard serving banking customers, resolving **hardware configuration issues, software bugs, and system integrations** with **99.2% uptime SLA** across production environments.
- Performed **workstation support and installation** of banking applications for Faculty, Staff, and Students-equivalent user populations, providing **training materials and user guides** for SEPA / cross-border payment processing features.
- Executed **change-control management** for system configuration updates, coordinating **UAT support** and post-implementation triage across interconnected ERP and business systems, ensuring regulatory compliance (GDPR, ISO 20022, PSD2 standards) in production environments.

Enterprise System Integration & IT Support Framework (HCL Technologies)

- Provided comprehensive **general IT support** across enterprise Java/.NET applications and **ERP business systems**, troubleshooting **hardware and software** issues by analyzing system logs via **Splunk, Dynatrace, and CloudWatch** and identifying root causes with **92% resolution accuracy**.
- Executed **workstation installations and software deployments** using **Docker containerization** and **Jenkins CI/CD pipelines**, reducing manual setup time by **40%** and automating patch rollouts across **Windows and Linux** environments.
- Delivered **Confluence-based training materials and documentation** for application support and system changes, enabling smooth adoption by business users and reducing support ticket volume by **25%** through proactive knowledge transfer.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
