PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered production application support and customer-facing troubleshooting for enterprise Java/.NET systems across **3.5 years**, managing SLA adherence, incident triage (P1/P2), and resolution via **email, live chat, screen shares, and conference calls** with cross-functional banking and operations teams.
- Developed in-depth product knowledge of **SWIFT messaging (MT/MX), ISO 20022 message flows, SEPA payments, PSD2, and Open Banking** standards through hands-on support of payments-operations dashboards; articulated complex technical concepts to business stakeholders and end-users for optimal self-sufficiency.
- Proficiently used **application logs, browser developer tools, Splunk, CloudWatch, and Dynatrace** diagnostics to isolate and resolve technical issues; applied best practices for system monitoring, troubleshooting, and operational alerting to enhance customer experience and reliability.
- Supported **ERP integrations and enterprise business-system configurations** across interconnected platforms; coordinated UAT, change-control management, and post-go-live triage to ensure seamless onboarding and project success for business-critical systems.
- Demonstrated independent and teamwork capabilities through **Agile/Scrum ceremonies, Jira ticketing, code reviews, and Confluence documentation**; proactively innovated and proposed process improvements for customer onboarding, knowledge-base content, and community engagement.
- Articulated technical poise under pressure during complex customer interactions involving **regulatory compliance (GDPR, Data Protection), audit trails, financial SLAs, and payment-flow visibility**; maintained clarity and confidence across challenging support scenarios in a fast-paced enterprise environment.

SKILLS

Customer Support & Communication – email, live chat, screen sharing, conference calls, in-person collaboration, SLA management, incident response.

Technical Diagnostics & Tools – application logs, browser developer tools, Splunk, CloudWatch, Dynatrace, Jenkins, Git.

Payments & Financial-Domain Knowledge – SWIFT messaging (MT/MX), ISO 20022 message flows, SEPA, PSD2, Open Banking, cross-border payments, transaction-flow visibility, payment-operations dashboards.

Enterprise Systems & Integration – ERP platforms, REST APIs, cross-system integrations, change-control management, UAT coordination, PostgreSQL, MySQL, Oracle.

Platform & Language Proficiency – Java, Spring Boot, Python, SQL, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

Product Knowledge & Best Practices – feature articulation, self-sufficiency training, knowledge-base development, regulatory compliance (GDPR, Data Protection), audit trails, community engagement.

Professional Attributes – problem-solving, customer-first approach, independent and team collaboration, poise under pressure, rapid technology grasp.

EDUCATION AND TRAINING

PROJECTS

SWIFT Messaging & Payments-Operations Dashboard Support (HCL Technologies)

- Delivered **24/7 production support and monitoring** for a mission-critical **SWIFT messaging / payments-operations dashboard** supporting a tier-1 banking client; managed **P1/P2 incident response** and SLA adherence across payment-message flows.
- Mastered **SWIFT MT/MX message formats, ISO 20022 message structures, SEPA / instant payments, and cross-border payment workflows**; provided technical guidance to banking operations teams and business analysts to ensure transaction-flow visibility and regulatory compliance.
- Coordinated **UAT support, post-implementation triage, and cross-functional collaboration** with banking-domain stakeholders to resolve production issues and optimize the dashboard; applied **GDPR and Data Protection compliance measures** across all customer interactions and system configurations.

Enterprise ERP Integration & Change-Control Support (HCL Technologies)

- Provided technical support and troubleshooting for **ERP modules and enterprise business-system integrations** across interconnected platforms; managed **REST API integrations and database-level data flows** across **PostgreSQL, MySQL, and Oracle** systems.
- Executed **change-control management for system configuration updates, UAT coordination, and post-go-live support**; communicated with end-users, business analysts, and operations teams via email, live chat, and screen shares to ensure smooth onboarding and project success.
- Leveraged **application logs, Splunk, CloudWatch, and Dynatrace diagnostics** to isolate issues within complex ERP environments; demonstrated poise and articulation in challenging customer interactions involving regulatory audit trails, SLA constraints, and multi-system dependencies.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
