PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Copilot Studio agents**, configuring topics, instructions, and flows to integrate with **Dataverse** and **Microsoft 365** connectors for internal business process automation.
- Developed reusable **prompt templates** and **action components** within Copilot Studio, incorporating **human-in-the-loop controls** to ensure user oversight for critical agent decisions.
- Integrated enterprise systems by configuring **Power Platform connectors** and developing custom connectors for REST APIs, enabling seamless data exchange between diverse business applications.
- Built and tested **AI agents** for accuracy, safety, and performance, applying principles of **retrieval-grounded generation** and responsible AI guardrails in a production-like environment.
- Managed solution documentation and contributed to **ALM processes**, including CI/CD pipelines and release management for deployed Copilot Studio agents.
- Collaborated with client teams to gather requirements and translate real-world use cases into secure, governed AI agent solutions, ensuring trust and adoption.
- Containerized and deployed **Copilot Studio agent components** to **Azure services**, establishing basic monitoring and logging with **Application Insights** for operational visibility.

SKILLS

AI/ML – Generative AI, Prompt Design, Retrieval-Grounded Solutions, Agent Orchestration, Responsible AI, Azure AI services, Azure AI Search, Model Context Protocols

Microsoft Power Platform – Copilot Studio, Power Automate, Dataverse, Power Platform Connectors, Custom Connectors, Solution-Aware ALM, Power Platform Governance

Programming Languages – Python, Java, SQL

Backend Development – Spring Boot, REST APIs, FastAPI

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure services

DevOps & CI/CD – Docker, Jenkins, Git, CI/CD, ALM

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

Customer Support Agent Automation (HCL Technologies)

- Developed a **Copilot Studio agent** to automate initial customer support triage, integrating with **Dataverse** to log tickets and retrieve customer history.
- Configured **Power Automate flows** to handle agent responses and escalate complex queries to human agents, reducing average initial response time by approximately **30%**.
- Documented the agent's capabilities and integration points, creating user guides for the customer support team to facilitate adoption and troubleshooting.

Internal Data Insights Copilot (MSc Project)

- Built a **Copilot Studio agent** that queries internal datasets using **SQL** and generates natural language summaries, functioning as an interactive business intelligence tool.
- Designed **custom prompts** and **knowledge sources** connected to a PostgreSQL database, enabling the agent to answer ad-hoc data analysis questions for business stakeholders.
- Applied **retrieval-grounded generation** techniques to ensure the agent's responses were accurate and directly derived from the provided data context.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
