PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented AI agent flows within **Copilot Studio**, configuring topics, triggers, and knowledge sources to automate business processes for enterprise clients.
- Integrated **Copilot Studio** agents with **Dataverse** and **Power Platform connectors**, enabling seamless data exchange and process orchestration across disparate systems.
- Developed reusable **prompt templates** and custom **actions** for AI agents, incorporating human-in-the-loop controls to ensure accuracy and responsible AI guardrails.
- Engineered and tested AI agent solutions, pushing their capabilities to validate accuracy, safety, and performance benchmarks before deployment to client environments.
- Managed solution documentation and contributed to **ALM** processes, ensuring maintainability and smooth transitions within the **Power Platform** governance framework.
- Built and maintained **REST APIs** using Java Spring Boot to serve data to internal applications, handling approximately 1,500 requests per minute during peak hours.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, managing configurations and basic resource allocation.

SKILLS

AI & Copilot Studio – Copilot Studio, Prompt Design, Agent Orchestration, Retrieval-Grounded Solutions, Generative AI

Power Platform – Power Automate, Dataverse, Power Platform Connectors, Solution-Aware ALM, Environment Strategy

API & Integration – REST APIs, Custom Connectors, System Integrations

Development – Java, Spring Boot, Python, Docker, Git

Cloud & Services – Azure Services, Microsoft 365, Microsoft Graph, Application Insights

Methodologies – Agile Delivery, Problem-Solving, Communication

PROJECTS

Customer Support Automation Agent (HCL Technologies)

- Developed a **Copilot Studio** agent to automate responses to common customer support inquiries, integrating with a knowledge base of over 500 FAQs.
- Configured **Power Automate** flows to trigger agent actions based on incoming support tickets, reducing average response time for Tier 1 issues by 30%.
- Designed reusable **prompt templates** for the agent to ensure consistent and accurate information delivery, handling approximately 1,200 inquiries per week.

Internal Data Pipeline Orchestrator (HCL Technologies)

- Built a Python-based ETL pipeline to consolidate data from multiple enterprise systems into a central data warehouse for operational reporting.
- Automated data ingestion and transformation processes using **Python** scripts and **SQL**, processing roughly 50,000 records daily.
- Scheduled and monitored pipeline execution using cron jobs on Linux, ensuring data availability for downstream analytics and reporting teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
