PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Created and executed community programmes for ADI's developer ecosystem, including online forums, meetups, and hackathons, driving audience targeting and promotional campaigns.
- Managed ADI's participation and commitments with open-source collectives like the Zephyr Project, ensuring active involvement and contributing to developer success.
- Owned the full lifecycle of community programmes, from ideation and goal setting to ROI measurement and iterative improvements for scalability.
- Designed and implemented nurture motions, including activity follow-up and community thread engagement, to deepen user interaction with the ADI Developer Portal.
- Built dashboards to track community health KPIs, enabling data-driven adjustments to programmes and messaging for continuous optimization.
- Coordinated communication and deliverables with external communities and open-source organizations, acting as a liaison between ADI and the developer ecosystem.
- Containerised Java Spring Boot services with Docker and deployed them to an AWS EKS cluster, configuring Helm charts and resource limits for predictable rollouts.

SKILLS

Community Management – Developer Community, Partner Ecosystem, Open Source Stewardship, Programme Execution, Community Engagement, Online Forums, Hackathons, Meetups, Brand Credibility, Awareness, Adoption, Nurture Motions, KPI Tracking, ROI Measurement, Digital & Physical Venues

Programming Languages – Java, Python, SQL, R, TypeScript

Frameworks & Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn, Flask, FastAPI, Node.js, NestJS

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git, Linux, Shell Scripting

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Analysis, Exploratory Data Analysis

Development Methodologies – Agile, Scrum, CI/CD, Code Reviews

PROJECTS

Community Engagement Platform Development

- Developed a Python-based backend service using Flask to manage developer community registrations and track engagement metrics across multiple platforms.
- Integrated with a PostgreSQL database to store user profiles and activity logs, enabling personalized content delivery and community segmentation.
- Designed and implemented RESTful APIs for seamless data exchange between the community platform and external ADI developer portals.

Open Source Contribution Framework

- Engineered a Java Spring Boot application to manage ADI's open-source project contributions, streamlining reporting and compliance tracking.
- Built automated Jenkins pipelines to facilitate code reviews and deployments for open-source projects, reducing manual intervention by approximately 40%.
- Collaborated with internal legal and engineering teams to ensure adherence to open-source licensing requirements and best practices.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
