HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, designing and implementing **REST APIs** for core platform functionalities, handling approximately **5,000 requests per minute**.
- Implemented robust data persistence layers using **Hibernate** and **JPA**, managing complex object-relational mappings and optimizing database interactions for enterprise applications.
- Authored **JUnit** tests and employed **Mockito** for unit testing Java components, ensuring code quality and adherence to design patterns within a **Maven**-managed build environment.
- Contributed to the design and development of secure, high-quality production code, producing architecture and design artifacts for complex applications in an agile team setting.
- Analyzed large, diverse datasets to develop visualizations and reporting, identifying patterns to drive improvements in software applications and system architecture.
- Gained hands-on experience with enterprise-authorized **AI-assisted software development** tools for code generation and unit test creation, critically evaluating and validating outputs.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, managing configurations and ensuring operational stability.

SKILLS

Languages – Java, Python, SQL, R, PL/SQL

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Jira, Confluence

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Splunk, Dynatrace, Power BI, Tableau, RStudio, Maven, Gradle

Methodologies – Agile, Scrum, CI/CD, Software Development Life Cycle

Domain Experience – Payments Operations, Transaction Monitoring, Reconciliation Workflows, ERP Integration Support

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Refactored legacy Java components into modern **Spring Boot** microservices, improving system modularity and enabling independent deployment cycles.
- Integrated a new persistence layer using **Hibernate** and **PostgreSQL**, managing schema evolution and ensuring transactional integrity for high-volume data processing.
- Developed comprehensive **JUnit** test suites, achieving over **85% code coverage** for critical business logic modules.

Customer Transaction Monitoring Dashboard (HCL Technologies)

- Built a **Java Spring Boot** backend service to aggregate and process real-time transaction data from multiple sources for operational visibility.
- Developed **REST APIs** to serve processed data to a front-end dashboard, enabling business analysts to monitor payment flows and identify exceptions.
- Implemented logging and monitoring using **Splunk**, tracking system health and capturing key operational metrics for a financial services client.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
