PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed **Java Spring Boot microservices** for core digital services, contributing to a **15% improvement** in API response times.
- Implemented **Hibernate** mappings and optimized **SQL queries** against **Oracle** databases, reducing data retrieval latency for critical financial operations by **22%**.
- Authored **JUnit** and **Mockito** tests for new Java features, achieving over **90% code coverage** and significantly reducing bug reports in production.
- Participated actively in **Agile Scrum ceremonies**, including sprint planning and technical estimation, collaborating with a team of **8 engineers** to deliver features on time.
- Conducted thorough **code reviews** for junior developers, providing constructive feedback to maintain high standards of **code quality** and adherence to OOP principles.
- Gained exposure to **NoSQL databases** including **MongoDB**, assisting in schema design discussions for new service integrations and data migration strategies.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, streamlining the development-to-production workflow.

SKILLS

Languages – Java, Python, SQL, JavaScript, HTML, CSS

Frameworks/Libraries – Spring Boot, Hibernate, Java EE, Spring, Spring Cloud, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Databases – MySQL, Oracle, PostgreSQL, MS SQL Server, MongoDB, DynamoDB, Cosmos DB

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Methodologies – Agile, Scrum, Kanban

Tools – Jira, Confluence, Splunk, Dynatrace

PROJECTS

Java Backend for Financial Services Platform

- Developed a suite of **Java Spring Boot microservices** to handle transaction processing and customer account management, integrating with **PostgreSQL**.
- Implemented robust error handling and logging using **Spring Boot Actuator** and **Dynatrace**, improving system observability and issue resolution time by **30%**.
- Wrote comprehensive API documentation using Swagger and conducted peer reviews to ensure adherence to architectural standards and best practices.

Automated Reporting System (HCL Technologies)

- Engineered **Python scripts** to automate the generation of daily operational reports from multiple enterprise systems, consolidating data from **Oracle** and **MySQL**.
- Designed and implemented ETL processes using **pandas** to clean and transform raw data, delivering aggregated insights into a central data warehouse.
- Scheduled report generation using **Jenkins** pipelines, providing timely updates to operations teams and reducing manual reporting effort by approximately **15 hours per week**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
