

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Engineered and maintained **Java Spring Boot microservices** for core backend functionality, focusing on **REST API development** and seamless integration with upstream and downstream systems.
- Developed and optimized **Hibernate/JPA** queries and data access objects, ensuring efficient interaction with the **PostgreSQL** database and improving data retrieval performance by approximately **18%**.
- Designed and implemented **JUnit and Mockito tests** for Java components, achieving over **85% code coverage** and ensuring the stability and reliability of new features.
- Contributed to the design and implementation of AI-first features for the **Webex Calling** solution, translating product requirements into actionable technical tasks within an **Agile/Scrum** framework.
- Collaborated with cross-functional teams to define and estimate technical tasks for new features during **sprint planning**, ensuring alignment with project goals and timelines.
- Containerized microservices using **Docker** and managed their deployment and lifecycle within a **Kubernetes** environment, supporting a highly available microservice architecture.
- Participated in code reviews for junior engineers, providing constructive feedback on code quality, design patterns, and adherence to best practices, contributing to team skill growth.

SKILLS

Languages – Java, Python, SQL, R, HTML, CSS

Frameworks/Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git, CI/CD

Databases – PostgreSQL, MySQL, Oracle

Tools/Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Concepts – Microservices, REST APIs, Agile, Scrum, Data Analytics, AI Features, Test Automation

PROJECTS

Java Microservices for Enterprise Operations

- Developed a suite of **Java Spring Boot microservices** to manage enterprise operational data, exposing functionalities via **RESTful APIs** for internal tooling.
- Integrated microservices with **PostgreSQL** using **Hibernate**, implementing robust data persistence and retrieval mechanisms for over **15,000** daily records.
- Wrote comprehensive **JUnit** tests for all service endpoints and business logic, ensuring high code quality and facilitating smooth integration with CI/CD pipelines.

AI-Powered Collaboration Feature Prototyping

- Prototyped and developed a proof-of-concept **AI feature** integration within a **Java** backend service, demonstrating potential for enhanced user interaction in collaboration tools.
- Explored the application of natural language processing techniques using **Python** and relevant libraries to process user input for the AI feature.
- Containerized the prototype application using **Docker** for easy deployment and testing in a simulated microservice environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
