

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed **Java Spring Boot** REST APIs for core banking modules, implementing robust error handling and security protocols.
- Integrated disparate enterprise systems using **Java** and **Spring**, facilitating data exchange through RESTful services and ensuring seamless cross-system functionality.
- Wrote and maintained **Hibernate**/JPA queries and performed database schema updates for **PostgreSQL** and **Oracle** relational databases, supporting critical financial data operations.
- Provided technical leadership and performed code reviews for junior developers on the team, ensuring adherence to clean code principles and best practices.
- Defined and refined architecture requirements for banking applications, focusing on optimizing **throughput**, **latency**, and overall system **reliability**.
- Drove the adoption and implementation of **CI/CD** pipelines for both cloud and on-premise deployments, improving deployment frequency and reducing manual intervention.
- Containerised Java applications using **Docker** and managed deployments on **AWS EC2** instances, enhancing environment consistency and scalability.

SKILLS

Languages – Java, SQL, Python, R, HTML, CSS, JavaScript

Backend Frameworks – Spring Boot, Spring, Hibernate, JPA, Flask, FastAPI

Frontend Frameworks – React, Angular

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Tools & Methodologies – Jira, Confluence, Agile, Scrum, REST APIs, OOP, Design Patterns, AI-assisted coding tools

PROJECTS

Core Banking Platform Enhancements (HCL Technologies)

- Developed new features for a strategic financial application using **Java Spring Boot**, focusing on enhancing transaction processing capabilities and API integrations.
- Refactored existing **Java** code to improve maintainability and performance, applying OOP principles and design patterns to complex modules.
- Collaborated with business analysts to define technical specifications for new functionalities, ensuring alignment with enterprise architecture and client requirements.

Financial Operations Data Pipeline (HCL Technologies)

- Engineered a **Python** data pipeline to automate ETL processes for financial transaction data, integrating with **PostgreSQL** and preparing datasets for reporting.
- Implemented scheduled reporting jobs using **Python** scripting and SQL, delivering key operational metrics to stakeholders on a daily basis.
- Supported the production environment for the financial services dashboard, monitoring data flow and responding to operational alerts for failed transactions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
