

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, implementing RESTful APIs for inter-service communication and handling approximately **1,500 requests per second** during peak hours.
- Engineered **Python ETL pipelines** to ingest and transform data from disparate sources, populating data warehouses for downstream analytical reporting and automating tasks that previously required **10+ hours of manual effort** per week.
- Managed production support for enterprise applications using **Splunk and Dynatrace**, responding to P1/P2 incidents and ensuring adherence to strict SLAs for critical financial operations.
- Designed and implemented **Hibernate/JPA** entities and queries for complex data models, optimizing database interactions and reducing query execution times by an average of **22%**.
- Collaborated with cross-functional teams to define technical requirements and estimate effort for new feature development within an **Agile/Scrum** framework.
- Containerized backend services using **Docker** and deployed them to development environments, ensuring consistent application behavior across different stages of the development lifecycle.
- Wrote comprehensive unit tests using **JUnit and Mockito** for Java components, achieving over **85% code coverage** for new feature development and critical bug fixes.

SKILLS

Languages – Java, Python, SQL, R, Javascript

Frameworks/Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

BI/Analytics – Power BI, Tableau, DAX, Power Query, RStudio

Tools/Platforms – Splunk, Dynatrace, Jira, Confluence

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Modernized legacy Java components into a **Spring Boot**-based microservice architecture, enhancing system scalability and maintainability for an enterprise client.
- Implemented data persistence using **Hibernate** and **PostgreSQL**, designing efficient schemas and optimizing queries for a core transactional data store.
- Developed RESTful APIs to expose new functionalities, integrating them with existing enterprise systems and ensuring seamless data flow across the platform.

Automated Reporting Pipeline with Python (HCL Technologies)

- Built a **Python**-based data pipeline using **pandas** to automate the generation of daily operational reports from multiple enterprise systems.
- Integrated the pipeline with a **SQL** database to consolidate data, reducing manual report compilation time by approximately **8 hours per week** for the operations team.
- Scheduled and monitored pipeline execution using **cron jobs** on Linux servers, ensuring reliable delivery of timely business intelligence.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
