

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained production-grade **Java Spring Boot** applications, focusing on REST API development and bug resolution for enterprise systems.
- Engineered **Python scripts** for automating data extraction and transformation tasks, supporting ETL processes for scheduled reporting and data ingestion.
- Managed incident response for critical enterprise applications using **Splunk** and **Dynatrace**, achieving adherence to strict SLAs and escalating P1/P2 issues.
- Designed and implemented relational database schemas and performed data validation using **SQL** across PostgreSQL, MySQL, and Oracle databases.
- Containerized Java applications using **Docker** for consistent deployment across development and production environments.
- Contributed to the development of a **payments operations dashboard** by implementing transaction monitoring features and operational alerting for financial-services client systems.
- Collaborated with cross-functional operations teams and business analysts to gather requirements, support UAT, and triage post-implementation issues for enterprise business systems.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn, Hibernate, JPA

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

BI/Analytics – Power BI, Tableau, DAX, Power Query

Tools – Splunk, Dynatrace, Jira, Confluence

PROJECTS

Enterprise Java Application Support & Enhancement (HCL Technologies)

- Provided critical production support for a suite of **Java** enterprise applications, diagnosing and resolving P1/P2 incidents within defined SLAs.
- Enhanced existing **Spring Boot** services by developing new REST endpoints and implementing bug fixes, improving system stability by approximately **15%**.
- Developed automated data validation scripts in **Python** to ensure data integrity between interconnected enterprise business systems.

Financial Operations Dashboard Development (HCL Technologies)

- Contributed to a **payments operations dashboard** by building features for transaction monitoring and operational alerting using **Java**.
- Wrote **SQL** queries to extract and aggregate transaction data for reporting and analysis, supporting reconciliation workflows for a financial-services client.
- Assisted in the deployment and monitoring of dashboard components within a production environment, ensuring adherence to GDPR and audit trail requirements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
