PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed reconciliation of **investment positions**, **transactions**, and **cash balances** across internal systems, identifying and investigating discrepancies for a financial services client.
- Developed **Python scripts** to automate daily reporting processes, reducing manual intervention by an estimated **40%** and improving data delivery timeliness for operational teams.
- Supported **cash and transaction mapping** processes for new data feeds from third-party providers, including rigorous **testing and validation** to ensure data integrity.
- Performed **data quality control** checks, ensuring the accuracy, completeness, and consistency of **policyholder and reference data** within a highly regulated environment.
- Collaborated with **Finance, Compliance, and IT** teams to investigate and resolve complex data exceptions, ensuring timely resolution and adherence to reporting deadlines.
- Maintained comprehensive **documentation** for reconciliation records, issue logs, and data control procedures, supporting audit requests and knowledge transfer.
- Containerized **Java Spring Boot** microservices using **Docker** and deployed them to **AWS EC2** instances, managing configuration and basic resource allocation.

SKILLS

Data Analysis & Reporting – Data Reconciliations, Financial Data, Investment Data, Insurance Data, Policyholder Data, Regulatory Reporting, Audit Support, Data Quality Controls, Exception Investigation, Process Improvement, Automation Initiatives

Core Technologies – SQL, Microsoft Excel, Power BI, Power Query, Python, Java, Spring Boot, REST APIs, Docker, AWS (EC2, S3, Lambda, CloudWatch), Linux, Git, Jenkins

Data Management – Data Feeds, Data Mapping, Data Validation, Data Modelling, Data Warehousing, ETL

BI & Visualization – Power BI, Tableau, DAX, Power Query

Financial Domain – Investment Operations, Financial Services Operations, Custodian Banks, Third-Party Providers

Methodologies – Agile, Scrum, Change Management

PROJECTS

Financial Data Reconciliation Platform (HCL Technologies)

- Developed a **Java Spring Boot** application to ingest and reconcile daily transaction data from multiple sources, integrating with **PostgreSQL** for data storage.
- Implemented automated checks and alerts for reconciliation exceptions, reducing manual review time by approximately **30%** and improving detection of discrepancies.
- Designed and built **Power BI dashboards** to visualize reconciliation status, key metrics, and outstanding exceptions for operational and management stakeholders.

Automated Reporting Pipeline for Investment Operations (HCL Technologies)

- Engineered a **Python**-based ETL pipeline using **pandas** to extract, transform, and load data from source systems into a data warehouse for reporting.
- Automated the generation of monthly operational reports and regulatory summaries, cutting report generation time from 2 days to 4 hours.
- Collaborated with business analysts to gather requirements and ensure the accuracy and completeness of data used in financial reporting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
