HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and maintained **datacenter infrastructure** including servers, **NAS systems**, and **power distribution units (PDUs)**, ensuring operational continuity across the Dublin site.
- Collaborated with senior engineers on the **deployment of new hardware and software**, performing meticulous installation, configuration, and testing to integrate with existing systems.
- Executed routine equipment inspections and daily maintenance tasks, proactively identifying and resolving potential issues to uphold datacenter reliability.
- Performed **inventory management**, accurately tagging all new and existing equipment and maintaining detailed records of repairs and asset status.
- Monitored key **datacenter performance metrics** such as temperature, power consumption, and network connectivity, escalating anomalies to the global engineering team.
- Assisted in troubleshooting and resolving **hardware and software issues**, working with cross-functional teams to minimize downtime and ensure swift resolution.
- Contributed to the enhancement of **operational procedures and documentation**, maintaining precise records of system configurations, change logs, and incident reports.

SKILLS

Operating Systems – Linux, Mac OSx

Datacenter Operations – Servers, Storage Systems, Networking Devices, PDUs, Equipment Installation, Cabling, Power Distribution, Cooling, Environmental Monitoring

IT Support Tools – Jira, Confluence, Google Workspace

Networking – TCP/IP, VLANs, Routing, Switching

Scripting & Automation – Bash, Ansible

Hardware – Dell, HP, Server Hardware, NAS Systems

Cloud & Virtualization – VMware, Proxmox, AWS (EC2, S3, Lambda, CloudWatch)

PROJECTS

Dublin Datacenter Infrastructure Support

- Supported the day-to-day operations of a large-scale datacenter in Dublin, Ireland, focusing on server and network device reliability.
- Implemented standardized **cabling and power distribution** practices for new hardware deployments, improving rack organization and reducing future maintenance time.
- Assisted in monitoring environmental controls and **security protocols**, including physical access logging and incident response coordination.

Linux System Administration & Automation

- Managed a fleet of **Linux servers**, performing system administration tasks including user management, package updates, and log analysis via **command-line interfaces**.
- Developed **Bash scripts** to automate routine tasks such as log rotation, system health checks, and file cleanup, reducing manual intervention by an estimated 15%.
- Configured and maintained services on **virtualized environments** using VMware, ensuring optimal performance and resource allocation for deployed applications.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
