HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for enterprise systems, handling core business logic and data persistence.
- Designed and implemented database schemas and wrote complex **SQL** queries across **PostgreSQL** and **MySQL** for data retrieval and integrity.
- Automated operational tasks and data processing workflows using **Python** scripting, reducing manual effort by approximately **20%**.
- Participated in **Agile** ceremonies and code reviews, contributing to sprint planning and ensuring code quality for new feature development.
- Managed production incidents and system alerts using **Splunk** and **Dynatrace**, adhering to strict SLAs and performing root cause analysis for P1/P2 issues.
- Containerized applications using **Docker** for consistent deployment environments, integrating with **Jenkins** for CI/CD pipeline execution.
- Collaborated with operations teams to gather requirements for system enhancements and provide post-implementation support for enterprise applications.

SKILLS

Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, pandas, NumPy, scikit-learn, Flask

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum

Concepts – REST APIs, Data Analytics, Machine Learning Fundamentals, Network Security Fundamentals, Operating Systems, Cloud Computing Concepts, Risk Management

PROJECTS

Enterprise Application Monitoring Enhancement

- Developed **Python** scripts to parse logs from **Splunk** and generate daily operational reports, highlighting key performance indicators for system health.
- Implemented automated alert routing using **AWS Lambda** functions, reducing incident response time by approximately **15%** for critical system events.
- Created **Jira** dashboards to track bug resolution rates and sprint progress, improving visibility for the development team and stakeholders.

Data Analytics for System Performance Insights

- Designed and built interactive **Power BI** dashboards to visualize system performance metrics derived from **SQL** databases and application logs.
- Performed data extraction, transformation, and loading (ETL) using **Power Query** and **pandas** to prepare data for analysis and reporting.
- Analyzed historical performance data to identify trends and potential bottlenecks, presenting findings to the operations team to inform system optimization efforts.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
