HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for core platform services, handling over 5,000 requests per minute during peak loads.
- Implemented robust data validation and error handling within the **Java persistence layer** using **Hibernate**, ensuring data integrity across enterprise transactions.
- Designed and implemented **JUnit and Mockito** test suites for critical Java modules, increasing code coverage by **15%** and reducing post-deployment defects.
- Contributed to the **AI Automation** pillar by developing Python scripts to parse and enrich threat intelligence feeds, reducing manual analysis time by **30%**.
- Managed and responded to **P1/P2 incidents** for enterprise applications, analyzing logs in **Splunk** and coordinating with operations teams to restore service within defined SLAs.
- Containerized backend services using **Docker** and managed deployment pipelines via **Jenkins**, enabling more frequent and reliable releases.
- Collaborated with cross-functional teams to gather requirements for **security enhancements** and translate them into actionable development tasks within an Agile framework.

SKILLS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Microsoft Azure, Google Cloud Platform

Cybersecurity Concepts – Malware, Phishing, Vulnerabilities, Risk Management, SIEM, Firewalls, Endpoint Detection, Vulnerability Scanners

Programming Languages – Java, Python, SQL, R, TypeScript

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI, NestJS

Databases & Data Storage – PostgreSQL, MySQL, Oracle, AWS S3

Tools & Technologies – Docker, Kubernetes, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

PROJECTS

Security Automation Scripting Framework (HCL Technologies)

- Developed a suite of **Python scripts** to automate the ingestion and correlation of security alerts from multiple enterprise sources, processing approximately **10,000 events daily**.
- Integrated scripts with **Splunk** to enrich security event data with contextual information, improving the efficiency of incident investigation by an estimated **20%**.
- Implemented **REST API clients** to fetch threat intelligence from external feeds, enhancing the detection capabilities for emerging cyber threats.

Secure Cloud Environment Monitoring (HCL Technologies)

- Configured and maintained **AWS CloudWatch** alarms and dashboards to monitor the health and security posture of production infrastructure, covering **50+ EC2 instances**.
- Wrote **shell scripts** for log analysis and automated system health checks on Linux servers, reducing manual troubleshooting time by **40%**.
- Documented incident response procedures for common security alerts, contributing to faster triage and resolution for the operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
