PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the full lifecycle of **IT support tickets**, from initial logging through to resolution, ensuring adherence to service level agreements and escalating complex issues to Tier 2/3 support teams.
- Diagnosed and resolved a wide range of **hardware, software, and application issues** for end-users, including troubleshooting common problems with Microsoft 365 applications and Windows operating systems.
- Provided professional and responsive **customer support** via phone, email, and in-person, maintaining clear communication throughout the incident resolution process.
- Contributed to **incident and problem management** by identifying recurring technical issues, documenting them, and assisting in root-cause analysis to prevent future occurrences.
- Supported **Microsoft 365 ecosystem**, including user account management, Office application troubleshooting, and basic configuration of user environments.
- Assisted with routine **endpoint management activities**, including monitoring system health, performing basic firmware updates, and contributing to scheduled maintenance tasks.
- Documented technical solutions and troubleshooting steps within the ticketing system, creating clear and concise **technical notes** for knowledge base contribution and team reference.

SKILLS

End User Support – IT Support, Service Desk, Technical Customer Support, Incident Management, Service Request Management, Problem Management, Escalation, On-site Support, Field Support

Microsoft Technologies – Microsoft 365, Office Applications, Windows Operating Systems, User Environments

Tools & Systems – Ticketing Systems, Service Management Information, Vendor Engagement, Microsoft, HP, Datto, Sophos

Professional Skills – Customer Focus, Communication Skills, Problem-Solving, Team Collaboration, Continuous Improvement, Technical Awareness, Documentation

PROJECTS

Enterprise Desktop Support Enhancement

- Streamlined the process for handling **hardware and software support tickets** for a large user base at HCL Technologies, reducing average resolution time by approximately 15% through improved diagnostic procedures.
- Developed and maintained **technical documentation and troubleshooting guides** for common end-user issues, aiding in faster resolution and reducing reliance on senior support staff.
- Collaborated with operations teams to implement proactive **system health checks** on user workstations, identifying potential issues before they impacted productivity.

Microsoft 365 User Environment Support

- Provided direct support for **Microsoft 365 services** and associated Office applications, resolving user queries related to email, collaboration tools, and document management.
- Assisted in the onboarding of new employees by configuring their **Windows user environments** and ensuring access to necessary applications and network resources.
- Documented common configuration issues and resolutions for **end-user computing environments**, contributing to a team knowledge base that supported over 500 users.
