PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed **Python** integrations for AI coding agents like **Codex**, building on **MCP** infrastructure and shipping via **PyPI**.
- Built and maintained a shared **Python** command-line interface (CLI) tool, publishing packages to **PyPI** and managing versioning through **CI/CD** pipelines.
- Implemented recurring data delivery solutions to customer cloud platforms including **AWS S3** and **BigQuery**, leveraging existing export capabilities.
- Developed and published connectors for developer frameworks like **LangChain** and agent SDKs, enabling seamless data access for AI workflows.
- Evaluated and prototyped integrations with automation platforms such as **Zapier** and **Replit**, focusing on generating sustained product adoption.
- Created clear **technical documentation**, setup guides, and practical code examples for public repositories, improving developer onboarding by an estimated **30%**.
- Managed the deployment and release of **TypeScript** and **Node.js** packages through **npm**, including integration testing and dependency management.

SKILLS

Languages – Python, TypeScript, Node.js, SQL, Java, R

AI & ML – AI Coding Agents, Codex, LangChain, LlamaIndex, MCP, Model Context Protocol

Cloud Platforms – AWS (S3, EC2, Lambda, CloudWatch), Google Cloud Storage, BigQuery, Snowflake

Developer Tools – PyPI, npm, Docker, Kubernetes, Jenkins, Git, Jira, Confluence, CLI, SDKs

Web Technologies – REST APIs, Authentication, Secure Credential Management

Data & Analytics – Power BI, Tableau, pandas, NumPy, scikit-learn, R/RStudio, DAX, Power Query

PROJECTS

AI Agent Integration Framework (Python)

- Developed a Python framework to standardize integrations between various AI coding agents (e.g., **Codex**, **Cursor**) and backend data services.
- Implemented core logic for data retrieval and context management using **LangChain**, enabling agents to access relevant information for complex tasks.
- Packaged the framework for distribution via **PyPI**, including comprehensive READMEs and example usage scripts that reduced integration time for pilot users by approximately **40%**.

Developer Tooling & SDK Development (TypeScript)

- Designed and built a cross-platform command-line interface (CLI) using **TypeScript** and **Node.js** to manage configurations for AI integration workflows.
- Developed an SDK component that abstracts underlying API calls, simplifying interaction for developers integrating with our platform.
- Implemented robust error handling and logging mechanisms, contributing to a **20%** reduction in reported integration issues from early adopters.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
