PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Performed physical inspection, diagnosis, and replacement of warehouse and office IT equipment including component and peripheral installation across **3 facilities**.
- Executed physical checks, power cycling, cabling, and connectivity verification for network devices, ensuring **operational readiness** of infrastructure.
- Managed physical deployment, configuration, installation, replacement, and removal of end-user and infrastructure devices, adhering to site protocols.
- Assisted remote support teams by providing 'Smart Hands and Eyes' for incident creation, investigation, and resolution, facilitating **24/7 operations**.
- Conducted physical inventory and asset verification checks, ensuring accurate tracking of IT equipment within the warehouse environment.
- Facilitated and assisted authorized vendor engineers on-site, providing necessary physical intervention and support for planned upgrades and maintenance.
- Recorded installation, movement, replacement, and removal of equipment using a **ticketing system**, maintaining up-to-date asset records.

SKILLS

Hardware – Hardware diagnostics, Component replacement, Peripheral installation, Network device inspection, Cabling, Connectivity verification

IT Support – Physical IT equipment installation, Troubleshooting, Asset management, Ticketing systems, Remote support assistance, End-user devices

Infrastructure – Network support, Structured troubleshooting, Site assistance, Planned upgrades, Patching, Maintenance activities

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Operating Systems – Linux, Shell scripting

Networking – Network device troubleshooting, Connectivity checks, Port status indicators

Certifications – CompTIA A+

PROJECTS

Warehouse IT Infrastructure Deployment and Support

- Led the physical deployment and configuration of over **200 end-user devices** and network infrastructure components in a new state-of-the-art warehouse environment.
- Performed hardware diagnostics and component replacement for servers, workstations, and networking equipment, resolving an average of **15 hardware issues per week**.
- Collaborated with remote IT teams to verify connectivity and execute power cycling procedures for network devices, ensuring stable operations for critical warehouse systems.

IT Asset Management and Lifecycle Tracking

- Implemented and maintained a detailed asset tracking system, recording the installation, movement, and removal of over **500 IT assets** across multiple sites.
- Conducted regular physical inventory and verification checks, identifying and rectifying discrepancies to ensure **98% inventory accuracy**.
- Managed the decommissioning and removal process for end-of-life IT equipment, adhering to secure disposal protocols.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
