HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot microservices**, implementing RESTful APIs for core business logic, processing an average of **1,500 requests per minute**.
- Designed and implemented database schemas and complex queries in **PostgreSQL** and **Oracle**, supporting critical financial operations reporting and data validation.
- Automated repetitive tasks and data ingestion processes using **Python scripting**, reducing manual effort by an estimated **20 hours per week** for the operations team.
- Collaborated on the design and development of **.NET Core microservices**, contributing to scalable, cloud-native backend systems on AWS.
- Contributed to the CI/CD pipeline using **Jenkins** and **Git** for automated builds, testing, and deployments, improving deployment frequency by **30%**.
- Participated in code reviews for **C#** and **.NET Core** codebases, ensuring adherence to coding standards and best practices within an Agile team.
- Deployed containerized applications to **AWS EC2** instances using **Docker**, managing container lifecycles and basic resource configurations.

SKILLS

Backend Development – C#, .NET Core, Java, Spring Boot, Microservices, REST APIs, Python, Flask, FastAPI

Cloud Platforms – AWS (EC2, S3, Lambda, SQS, SNS, CloudWatch), Docker

Databases – SQL Server, PostgreSQL, DynamoDB, Redis, Oracle, MySQL

Frontend Technologies – React, TypeScript

Development Practices – CI/CD, Jenkins, Git, Agile, Scrum, Automated Testing, Code Reviews

PROJECTS

Backend Service for Transaction Processing

- Engineered a **Java Spring Boot service** to handle inbound transaction messages, including data validation and enrichment.
- Integrated with **PostgreSQL** to store and retrieve transaction details, ensuring data integrity for downstream reconciliation workflows.
- Implemented asynchronous processing using **AWS SQS**, enabling the system to manage bursts of activity and maintain stable performance during peak loads.

Cloud-Native Data Ingestion Pipeline

- Developed a **Python-based data pipeline** to ingest and transform operational data from various sources into a centralized data store on **AWS S3**.
- Automated data quality checks and error reporting using custom scripts, reducing data anomaly detection time by **40%**.
- Containerized the pipeline components with **Docker** for consistent deployment across development and production environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
