HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and optimized **AWS cloud infrastructure**, including EC2, VPC, IAM, and S3, ensuring high availability for production services.
- Automated operational tasks and configuration management using **Ansible modules**, streamlining deployment processes across multiple environments.
- Developed and maintained **reusable Terraform modules** for provisioning AWS resources, enabling consistent multi-environment deployments and reducing manual configuration errors by **~40%**.
- Supported **Kubernetes cluster operations** on AWS EKS, troubleshooting node, networking, and pod-related issues to maintain application stability.
- Participated in **incident response** for critical production issues, conducting root cause analysis (RCA) and implementing preventative measures.
- Coordinated and performed **infrastructure patching** and vulnerability remediation activities, minimizing system downtime and security risks.
- Implemented and monitored **AWS Load Balancers (ALB/NLB)**, diagnosing and resolving connectivity, latency, and health check issues to ensure seamless traffic flow.

SKILLS

AWS Services – EC2, VPC, IAM, S3, Route 53, CloudWatch, Auto Scaling, Load Balancers (ALB/NLB), RDS

Infrastructure as Code – Terraform Modules, Ansible Modules/Playbooks

Container Orchestration – Kubernetes, AWS EKS, Docker

Observability & Incident Management – CloudWatch, Incident Response, RCA, Patching, Vulnerability Remediation

Scripting & Automation – Python, Bash

PROJECTS

AWS Infrastructure Automation with Terraform and Ansible

- Designed and implemented a comprehensive suite of **Terraform modules** to provision and manage AWS infrastructure, including VPCs, EC2 instances, security groups, and S3 buckets.
- Developed **Ansible playbooks** to automate server configuration, software installation, and application deployments across the provisioned AWS environment.
- Integrated Terraform and Ansible into a **CI/CD pipeline** using Jenkins, enabling automated infrastructure updates and reducing deployment time by approximately **30%**.

Kubernetes Cluster Operations and Observability

- Deployed and managed a **Kubernetes cluster** on AWS EKS, configuring node groups, ingress controllers, and networking policies.
- Integrated **CloudWatch monitoring and alerting** for Kubernetes nodes and pods, establishing baseline performance metrics and setting up alerts for critical events.
- Authored detailed **runbooks** for common Kubernetes operational tasks, including upgrades, scaling, and troubleshooting pod failures, improving incident resolution time by **~20%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
