PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Investigated and resolved live production incidents across **Java Spring Boot** applications and integrations, performing root cause analysis using **Splunk** and **Dynatrace**.
- Developed Python scripts to automate data extraction, transformation, and loading for scheduled reporting, processing approximately **5,000 records** per execution.
- Executed complex **SQL** queries across **PostgreSQL** and **Oracle** databases for data validation, reconciliation, and to diagnose transactional failures.
- Troubleshot and debugged **REST APIs** using **Postman**, analyzing request/response payloads including **JSON** and **XML** to identify integration issues.
- Supported controlled application changes through Test/UAT phases and into production environments, coordinating with development teams and business analysts.
- Managed incidents and service requests through an **ITSM platform**, documenting root causes and developing standard operating procedures for recurring issues.
- Containerized enterprise applications using **Docker** for consistent deployment across development and production environments on **AWS EC2**.

SKILLS

Application Support – Production Support, Incident Management, Root Cause Analysis, SLA Management, Change Management, Release Management, ITSM Platform, Troubleshooting

Backend Development – Java, Spring Boot, REST APIs, Microservices, API Design, Debugging

Databases & Data Handling – SQL, PostgreSQL, MySQL, Oracle, JSON, XML, CSV, Data Validation, Data Reconciliation

Scripting & Automation – Python, Shell Scripting, ETL, Data Pipelines, Scheduled Reporting

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

Tools & Methodologies – Postman, Jira, Confluence, Agile, Scrum

PROJECTS

Enterprise Application Integration Support (HCL Technologies)

- Provided production support for a suite of interconnected business systems, including a core ERP platform, by monitoring application logs and performance metrics.
- Investigated and resolved integration failures between the ERP system and downstream financial services applications, tracing issues through **REST APIs** and database interfaces.
- Developed **Python** scripts to automate the reconciliation of transaction data between disparate systems, reducing manual effort by an estimated **40%**.

Transaction Processing Dashboard Enhancement (HCL Technologies)

- Supported and enhanced a payments operations dashboard for a financial services client, focusing on monitoring transaction flows and alerting for processing errors.
- Utilized **SQL** to query and analyze transaction data within **PostgreSQL**, identifying root causes for failed payment messages and validating data integrity.
- Collaborated with operations teams to refine alerting mechanisms, decreasing the volume of false positive alerts by **15%** through improved rule logic.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
