PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Gathered and documented business requirements from key stakeholders across sales and service departments, translating complex needs into actionable functional specifications for Salesforce solutions.
- Mapped current-state business processes and identified key areas for improvement in user experience and automation within the Salesforce Sales and Service Cloud environments.
- Supported User Acceptance Testing (UAT) cycles for system enhancements, coordinating feedback from business users and collaborating with administrators and developers on defect resolution.
- Analyzed existing workflows and automation within Salesforce to propose enhancements that streamline operations and improve data integrity for sales and customer service teams.
- Collaborated with Salesforce Administrators and Developers to translate business requirements into technical specifications, ensuring alignment between user needs and platform capabilities.
- Facilitated requirements gathering sessions with diverse stakeholder groups, including sales leadership and customer support managers, to define project scope and objectives.
- Managed change control processes for system configuration updates, coordinating UAT and providing post-go-live support across interconnected enterprise systems.

SKILLS

Salesforce – Sales Cloud, Service Cloud, Configuration, Workflows, Automation, User Stories

Business Analysis – Requirements Gathering, Process Mapping, Stakeholder Management, UAT Support, Functional Specifications

Development & Operations – Java Spring Boot, Python, SQL, REST APIs, AWS, Docker, Linux, Jenkins, Git

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

Financial Services Operations – Payments Operations Dashboard, Transaction Monitoring, Reconciliation Workflows, Production Support

PROJECTS

Salesforce Service Cloud Optimization for Customer Support

- Gathered requirements from the customer support team to identify bottlenecks in case resolution workflows, documenting needs for system enhancements.
- Mapped existing service processes and designed new automation rules within Salesforce Service Cloud to reduce manual data entry for support agents.
- Supported UAT for the redesigned service workflows, ensuring that new configurations met the operational requirements for faster response times.

Enterprise Business Systems Integration & Reporting

- Developed Python scripts to extract and transform data from an ERP system into a PostgreSQL database for operational reporting, supporting ~1,500 daily transactions.
- Designed and built Power BI dashboards to visualize key ERP metrics and system integration statuses, providing insights to business stakeholders.
- Collaborated with cross-functional teams to manage change requests and coordinate testing for system configuration updates in interconnected enterprise platforms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
