HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** microservices to handle user authentication and authorization, integrating with a **Keycloak** instance for identity management.
- Developed and maintained **Hibernate** entities and JPQL queries for a relational data store, ensuring efficient data persistence and retrieval for core application features.
- Authored comprehensive **JUnit** and **Mockito** test suites for critical Java components, achieving over **90% code coverage** and reducing post-deployment defects.
- Configured and managed **Keycloak** multi-realm environments within **Microsoft Azure** to support complex access control policies and **PBAC** implementations.
- Integrated **Keycloak Authorisation Services** with a new platform, enabling seamless **single sign-on (SSO)** and identity federation across multiple user-facing applications.
- Collaborated with business analysts and technical stakeholders to define and refine **IAM** requirements, translating them into scalable identity and permissions solutions.
- Deployed containerised Java applications to **Azure Kubernetes Service (AKS)**, configuring **Docker** images and managing deployment pipelines through Jenkins.

SKILLS

Languages – Java, Python, SQL, Shell Scripting

Frameworks/Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy

Identity & Access Management – Keycloak, IAM, SSO, Identity Federation, PBAC, RBAC

Cloud/DevOps – Microsoft Azure, Azure Kubernetes Service (AKS), Docker, Jenkins, Git, AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools – Jira, Confluence, Splunk, Dynatrace

PROJECTS

Keycloak-Integrated Java Authentication Service

- Developed a **Java Spring Boot** application to manage user profiles and integrate with an existing **Keycloak** deployment for authentication.
- Implemented **REST APIs** for user registration and profile updates, ensuring secure data handling and API contract adherence.
- Configured **multi-realm Keycloak** environments to segregate tenant-specific user data and access policies, supporting **~15 distinct customer environments**.

Azure IAM Integration for Enterprise Platform

- Designed and deployed **Keycloak** and associated **IAM** services within **Microsoft Azure** as part of an enterprise platform upgrade.
- Implemented **SSO** and identity federation using SAML 2.0 to streamline user access for over **500 internal users**.
- Wrote scripts to automate the provisioning of user roles and permissions based on enterprise directory groups, reducing manual setup time by **~40%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
